

STRIKE RESULTS IN NEAR RIOT

Police Reserves and Deputies Break up Crowd of 2,000 In Springfield

STREET CAR MEN QUIT

No Serious Injury Reported As Result of Minor Clashes Between Men and Small Mobs

CLAIMS CONTRADICTORY

BULLETIN.
SPRINGFIELD, Ill., July 26. At 2:15 this morning (Thursday) the city was quiet and there was no sign of further disturbances.

Police and special officers, however, are preparing to take measures to avert any recurrence of the disorders today in view of the fact that trouble is expected in some quarters because of the arrest of Jerry Burnette, strike organizer, late last night.

BULLETIN.
SPRINGFIELD, Ill., July 25.—Bert Taylor, aged 30, a motorman, was shot just above the left eye from ambush to-night as he was running his car under a subway in the north part of the city. The wound is not serious. The assailant, supposedly a strike sympathizer, fired from a high bank as the street car was moving rapidly. No arrests have been made.

BULLETIN.
SPRINGFIELD, Ill., July 25.—With the arrest here tonight of Jerry Burnette (said to be a resident of Peoria, officials of the Springfield Consolidated Railway company believed the strike of street car employees would be brought to a speedy end. Burnette, an alleged strike agitator, was taken on a sheriff's warrant charging him with violation of the malicious mischief act which makes it a penitentiary offense to hire, induce or persuade any person to destroy the property or rails of a railway company. Burdette was locked up in the county jail.

A number of other arrests have been made on charges of assault and battery.

SPRINGFIELD, Ill., July 25.—Police reserves and deputy sheriffs early tonight broke up a crowd of 2,000 persons who had gathered at Fifth and Monroe streets, a downtown transfer point, to watch sympathizers with a street car strike jerk trolley poles and hear their threats of bodily injury if the men who remained on the cars did not quit their places.

Many Reports of Disorders.
Immediately after the crowd had been dispersed reports of disorders began to come into police headquarters telling of attacks on car operatives and destruction of property of the Springfield Consolidated Railway company which, strikers declared had ignored their advances for a conference on demands made early in the week and every day since.

Adjutant General F. S. Dickson and Lieutenant Governor John Oglesby, acting governor, were appealed to for aid in maintaining order by A. D. Mackie, general manager of the car company, but they declined to act until Sheriff John A. Wheeler should inform them the situation was beyond the control of the civil authorities.

Sheriff Wheeler threw forty deputies into sections of the city where trouble was reported and furnished one deputy to guard each car.

Chief of Police Wilbur F. Morris called in his entire extra force of patrolmen and detectives and the downtown district is being patrolled by half a dozen officers to each block.

Cars Run Infrequently.
Cars are now running at infrequent intervals, but few persons have hazarded the danger of being struck by flying bricks with which many of the cars were given fusillades.

Jerry Burnette, organizer for the Amalgamated Brotherhood of Railway Trainmen, who is said to have directed the recent strike at Bloomington, is reported to be the prime mover in the agitation for recognition of the union here and for higher wages. The men are said to be determined.

NEGROES OF NEW YORK PLAN DEMONSTRATION

NEW YORK, July 25.—As a protest against the recent East St. Louis race riots, negroes of New York have arranged for a demonstration of Saturday to take the form of a silent parade on Fifth avenue. It was announced today that more than 2,000 negro men intended to join in the demonstration. Except for a few riots and the part taken by negroes in the development of the country, it was said, that there would be no attempt to draw attention to the paraders.

MANY BOARDS BEGIN SUMMONING MEN

Preparations for Mobilizing the Draft Army Go Forward

Numerous Details To Be Worked Out Before Those Summoned Can Be Actually Transferred To The Military Establishment.

Washington, July 25.—Preparations for the actual mobilization of the National Army went ahead here today while the local selection boards in many parts of the country began summoning for examination the men who will compose the force.

Details to be worked out. There are numerous details to be worked out before those summoned can be actually transferred to the military establishment and be sent to their training cantonments. It is believed now, however, that a considerable number will have been finally selected and will be awaiting the call to the colors before August 1. The entire force will be ready with the exception probably of a few disputed cases, by the time the 16 cantonments are ready in September.

Provost Marshal General Crowder under whose jurisdiction the selective draft men will remain until they are transferred to the books of the adjutant general as soldiers, pointed out today that the local board actually is selection, not exemption boards. Their primary purpose, he said, was to select from registered men those who can qualify for military service. The men they turn away after examination will be rejected, rather than exempted because of physical disability or dependents.

Powers of Exemption Boards.
The exemption boards proper are the district boards which have power to say whether the work a man is doing at home will be more important to the government than his services as a soldier. Information reaching Washington indicates that the exemption boards are taking the view of their work that makes that name fitting for them. They are bent on finding men for the army in the shortest possible time. When they certify any man to the higher boards as held for service the man becomes a soldier and subject to soldier law. It will be the duty of the provost marshal general from that time on to see that he complies with all army orders affecting him and also to turn him over to the army authorities when he is called to the colors.

The quotas from the various districts probably will be assembled first at their district headquarters when the call comes.

Whether they will be turned over to an army officer there and taken to their cantonment or whether one of their number will be placed in charge to conduct them to the cantonment has not been decided.

ELECT T. J. FOLEY I. C. VOICE PRESIDENT

CHICAGO, July 25.—T. J. Foley, who started in the railroad business as a messenger boy when he was eleven years old today was elected vice-president of the Illinois Central railroad to succeed W. L. Park, who has been assigned to other duties.

The action was taken at a meeting in New York of the board of directors.

Mr. Foley who had been general manager of the Illinois Central was in charge of operation, maintenance and construction with headquarters in Chicago. He will be succeeded by A. E. Chitt, general superintendent of the Northern and Western Lines. Mr. Foley is 59 years old, starting with the Pennsylvania railroad 39 years ago. He came to the Illinois Central from the Union Pacific in 1910.

ORDER RAILROADS TO MOVE EMPTY CARS

NEW YORK, July 25.—Thirty-six American railroads have been ordered immediately to move 68,814 empty freight cars to the lines of 54 other railroads, Fairfax Harrison, chairman of the railroads war board, announced tonight. The action was taken rapidly to mobilize in different sections of the country the cars necessary to handle abnormal government and commercial traffic developed by the war. The policy is new, it was pointed out since it takes no account of ownership of the cars.

SIXTY-TWO MINERS KILLED BY EXPLOSION

SYDNEY, July 25.—Sixty-two miners were killed by an explosion in the Dominion Coal company's No. 12 colliery at New Waterford today. Thirty-two bodies, may of them terribly mangled had been recovered late tonight. The clearing away of gas fumes which hindered early rescue work is expected to permit the rescue of other bodies before morning. The cause of the disaster which was the worst in the history of Cape Breton mining had not been determined tonight.

BEGIN INTENSIVE WORK AT AMERICAN CAMP

Spirit of Men Encourages Hopes of Highest Efficiency

Both Offensive and Defensive Tactics Will Be Employed and Sham Battles With Grenades, Bayonets, and Trench Mortars Will Soon Take Place

American Training Camp in France, July 25.—By The Associated Press.—There was greater activity in the training camp today than at any time since the American troops reached France, actual intensive work having been begun. The American commanders do not believe the amount of work necessary to bring the men up to the highest European standards, but the spirit with which the troops have undertaken this work has encouraged the highest hopes of early efficiency. Trenches were being dug today in the way of practice, with an enthusiasm almost equal to that with which soldiers dig themselves in under actual artillery fire. These trenches were of full depth and were front line duplicates consisting of front or fire trenches, support trenches and reserve trenches with intricate communication trenches connecting them.

Yesterday the marines got under way with their digging and they were wiring themselves in today behind great barriers of barbed metal entanglements, for in every way possible the intensive training is intended to approximate operations under actual war conditions. Both offensive and defensive tactics will be employed and some very lively sham battles with grenades, bayonets and trench mortars will soon take place. Dummies have been constructed for bayonet practice and the men are being taught the six most vital points for attack. The dummies to look like the German emperor, Von Hindenburg and other enemy notables and now each American company is searching its ranks for embryo artists.

Practice in trench fighting will not wholly replace marches or hikes, for the hardening process must continue all the time. Already the men's packs weigh in the neighborhood of 50 pounds, but when finally they are equipped for the trenches, with steel helmets and an extra kit, these packs may weigh eighty pounds or equal to that carried by the British troops and the men must be fit to bear this burden with out undue fatigue.

The weather is warm but the nights are cool and refreshing. As much of the training as possible is done during the cooler hours of the early morning. The American soldiers lack reading matter and it has been suggested that some such arrangement might be made in the United States as that in England, whereby any person, after reading a magazine or other periodical can merely drop the same unaddressed into any postoffice, the government forwarding it promptly to the troops and the field thru the regular channels of distribution. The men are also looking forward to the establishment of Y. M. C. A. huts at the camps and efforts are being made to hurry construction of these.

JUSTIFY BRITISH PREMIER'S SKEPTICISM

COPENHAGEN, July 25.—Premier Lloyd-George's skepticism regarding Chancellor Michaelis' good faith, his doubts whether the chancellor's reply to the Reichstag resolution really means what it pretends to mean, his belief that the reference of peace professing statesmen to the security of frontiers, capable of being extended at will to cover the absorption of Belgium and any other desired annexations, received unexpected justification and corroboration from German sources in the growing frankness of criticism which the defunct Zukunft might envy.

It was declared yesterday that Chancellor Michaelis' speech was ambiguous and open to two interpretations which Lloyd-George mentioned. It was added that the policy of silence of political aims inaugurated by Herr Michaelis had laid the German policy open to that dubious reputation which Lloyd-George criticized.

His picture of German parliamentarism under the formula of Herr Michaelis may be distorted, so it was declared, but contains enough truth to serve as a warning to the German people.

GOVERNOR MUST ASK FOR FEDERAL TROOPS

SAN FRANCISCO, July 25.—Federal troops will not be sent to San Jose or Santa Clara to guard against threatened depredations of cannery strikers except at the urgent request of Governor Stephens.

If Governor Stephens reports the situation is beyond the control of civil authorities troops will then be sent it was said at military headquarters.

A detachment not at Santa Clara ordered there last night as a "scouting" party without authority to take action was recalled today.

RECEIVES ADMIRAL CAPERTON.

Buenos Aires, July 25.—The president of the Republic, Dr. Irigoyen, today, received Admiral Caperton, commander of the American squadron and his staff. The American ambassador, Frederic J. Stimson, expressed sincere gratitude at the splendid reception of the visiting squadron and frank appreciation of the warm welcome extended by the people of Buenos Aires to the men of the American warships.

SITUATION ON RUSS FRONT SERIOUS

Hope of Short Struggle Goes With Apparent Collapse of War Machine

MAY HAVE BEARING ON U. S.

Collapse Would Release German Forces to Strengthen the Western Front

U. S. NOT DISCOURAGED

WASHINGTON, July 25.—No attempt is made here to minimize the seriousness of the situation in the war theaters in Europe. The United States is in the war and will go thru with it; but hope of a short struggle has gone with the apparent collapse of the Russian war machine.

Most Observers Were Skeptical.
When the Russian offensive of July 1 was started the most frequent comment here was that it was probably the dying kick of the old Russian machine. Most observers were frankly skeptical that it could produce decided results. For the United States the Russian collapse may have an immediate bearing. It probably will release additional German forces to strengthen the western front where the American troops are to be engaged. The German line there has not been seriously impaired at any point, of course believe. They don't claim to know the situation all along the battle front, but they are unable to see that the Germans have lost the key position of such importance that it can be used to hurl the enemy back.

It has been noted that the one strategic advantage gained in the recent fighting was gained by Germans. Many officers believe that when a small sector of the British line in Belgium was overwhelmed the Germans improved the situation on their weakest front materially. That view is based on opinion that the only hope of decisive attainments for the allies in the west lies in rolling up the German right flank where it reaches the sea in Belgium.

Could Stamp Out U-Boat Bases.
If that could be done it is argued that the U-Boat bases could be stamped out and only offensive instrument of the German line eliminated or so seriously impaired as to make it ineffective. It would require combined army and navy operations on that part of the Belgian coast held by the Germans, for it would be necessary to force a landing behind their line and force the whole right flank back from the sea as a result.

The price of such a victory probably would be appalling and there is nothing to indicate that the effort is being seriously considered. Many British and United States, favor some such desperate attempt to end the struggle.

Reports from France give no cheering picture of what must be done. There appears to be no doubt that the allied line can stand against any force Germany can bring against it. Even the Russian disaster does not affect that situation. But to gather the necessary strength for a successful offensive will take time and ample sea transportation facilities if the United States is to furnish the needed surplus of men, airplanes, munitions and food.

The transportation problems before the United both on land and on sea are constantly increasing. Whole railroad systems probably will have to be set up in France to give the American line the flow of war materials and men that it must have to press home an attack.

West Front Fortified Belt.
There is an old military rule that a fortified position cannot be turned or isolated entirely. Some observers here say the allied offensive has consisted only of attacks against a line of fortifications stronger than any fort of former days. The maze of trenches, entanglements, armored strong posts and fortified villages extends miles back on the front on both sides, so that in effect a fortified belt stretches from the sea to the Swiss border that is perhaps more than one hundred miles wide.

Some military men believe a breach can be made for many months thru the German line of sufficient width to permit operations in the rear as would form a rolling of the entire German front. However there is no sign of discouragement among American officials. President Wilson's declaration that the nation, not merely an army, must be made ready for war is being carried out determinedly and apparently with confidence that in time men and supplies can be got to France in sufficient force to make certain the result.

ADD GLASS BOWL TO HISTORIC COLLECTIONS

Philadelphia, July 25.—A glass bowl from which the 19,500 capsules containing the national war numbers were drawn in Washington last Friday is to be added to the historic collections at Independence Hall.

JURY ACQUITS MRS. MOONEY OF MURDER

Verdict Ends Fifty-one Hours Deliberation

Trial Lasted Nine and One Half Weeks—Seven Other Indictments Pending Against Mrs. Mooney, but it is Uncertain Whether She Will Be Tried Again.

San Francisco, Cal., July 25.—Mrs. Rena Mooney, a music teacher, was acquitted by a jury late today of murder growing out of a bomb explosion here last July which killed ten persons. She was charged specifically with the murder of Mrs. Myrtle Irene VanLoo, a victim. The jury had deliberated since Monday afternoon.

Mrs. Mooney was one of the five defendants in the murder cases growing out of the explosion. The trial lasted nine and one-half weeks, the jury deliberated fifty-one hours before reaching its verdict of "not guilty."

Seven Indictments Pending.
Seven other indictments are pending against Mrs. Mooney but it is uncertain, according to the district attorney, whether she will be tried again.

Thomas J. Mooney, her husband and Warren K. Billings, have been convicted and sentenced, respectively, to death and life imprisonment. Both have appealed. Israel Weinberg and Edward A. Nolan the other defendants remain to be tried. "The bomb cases are at an end," declared Thomas O'Connor of Mrs. Mooney's counsel. "The next trial will be that of O'xman."

Francis C. O'xman, an Oregon cattleman, is accused with attempted subordination of perjury in connection with Thomas Mooney's trial in which he was the chief witness for the prosecution.

"I am surprised at the verdict," said District Attorney Charles M. Fickert, who, with his assistant, Louis Ferrari, prosecuted Mrs. Mooney. "We expected the jury to disagree."

Mrs. Mooney Kisses Each Juror.
As the foreman announced the verdict, Mrs. Mooney, a young music teacher, jumped from her seat and kissed each juror. Friends, relatives and her attorneys showered her with congratulations.

Mrs. Israel Weinberg fainted when the verdict was announced. Cheering and handclapping by a number of spectators was stopped by bailiffs and the court room was cleared. As the jurors filed out women relatives of the various defendants seized and kissed their hands.

Mrs. Mooney made her way, smiling and bowing right and left, to the county jail where her husband is confined. Entering his cell she threw herself into his arms. The other defendants and numerous relatives and friends crowded into the cell and a jumble was held.

TWENTY-FIVE BRITISH SHIPS SUNK IN WEEK

LONDON, July 25.—Twenty-five British vessels of more than 1,600 tons each and three of less than 1,600 tons each were sunk last week by mines or submarines, according to the weekly admiralty report on shipping losses. One fishing vessel was also sunk.

The admiralty's statement follows: "Arrivals, 2,791; sailings, 2,791. "British merchantmen sunk by mine or submarine, over 1,600 tons, including two previously, 21; under 1,600 tons, 3.

"British merchant vessels unsuccessfully attacked, including three previously, 15.

"British fishing vessels sunk, 1."

The announcement of the British admiralty given above shows an increase of seven vessels of more than 1,600 tons sent to the bottom as compared with the report of the previous week when fourteen were sunk. In the smaller category the loss is one less than that given in the report of the previous week, while there was a falling off by seven in the number of fishing vessels sunk.

CANADA TO BORROW \$100,000,000 FROM U. S.

WASHINGTON, July 25.—Canada is to borrow \$100,000,000 in the United States to offset in part the heavy trade balance against her in this country. The loan will run for two years, bear interest at the rate of approximately six per cent and will be made by a syndicate of New York bankers. Approval by Secretary McAdoo of the Canadian loan announced today by him marked a departure from the policy of keeping American money markets free from bond offerings of the belligerents.

GERMAN U-BOAT SINKS BRITISH SUBMARINE

BERLIN, July 25.—via London.—The British submarine C-34 has been sunk by a submarine it is officially announced today. The sole survivor as taken prisoner.

The British submarine C-34 was built in 1909, one of eight craft of identical design. She was a boat of 813 tons and had a maximum draught of twelve feet with a speed of four knots submerged. She was equipped with two torpedo tubes. Her normal complement was sixteen men.

POPE ADDRESSES SACRED COLLEGE

Rome, July 25.—Pope Benedict addressed the Sacred College today in answer to greetings from the eve of his name day. The pontiff spoke feelingly of the conditions of the world and the conditions of the church and the church, and deplored the extension of the struggle.

FIND DYNAMITE BOMBS IN CAR LOAD OF COAL

CHICAGO, July 25.—Two dynamite bombs with wires attached were found today in a carload of coal consigned to a local greenhouse. The coal came from a mine in southeastern Indiana. The bombs were turned over to the police who have taken the question of investigation up with the federal authorities. Owners of the greenhouse to which the coal was consigned believe that whoever placed the explosives in the car made a mistake in its destination and meant them for some other consignment.

SEND FOOD CONTROL BILL TO CONFERENCE

Conferees To Hold First Meeting This Morning

House Instructs its Conferees to Disagree to all Senate Amendments—Will be at Least a Week Before a Report is Ready.

Washington, July 25.—The administration food control bill was sent to conference by the house today with blanket instruction to disagree with all senate amendments. The conferees will hold their first meeting tomorrow morning but it probably will be at least a week before a report on the long-disputed legislation is ready.

Special Rule Forces Action.

Blocked in sending the measure to conference yesterday by the effort of Republican Leader Mann for a separate vote on the amendment creating a congressional war expenditures committee, the Democrats brought in a special rule to force action today. Thirty-one Republicans joined in supporting a motion to invoke the previous question on the rule shutting off debate, and after that Mr. Mann's opposition collapsed completely. The principal trouble in conference doubtless will center around the senate amendments for the war expenditures congressional committee, the Democrats brought in a special rule to force action today. Thirty-one Republicans joined in supporting a motion to invoke the previous question on the rule shutting off debate, and after that Mr. Mann's opposition collapsed completely. SOMEBODY MUST BE BOSS.

When the President removed both Col. Goethals and Chairman Denham of the shipping board he did not "take sides" in the question which has proved such a stumbling block to the board, but merely eliminated both principles in the controversy. It remains to be seen whether or not the trouble has been settled and as a precaution against further differences there should be an early understanding as to whose judgment is final when questions are before the construction engineers and the board members. Unless this is done a situation just like that which has been "saved" by the president's action may develop again.

NOT THE TIME FOR POLITICS.

It is said that several members named for the shipping board will not be confirmed until the senators have made some investigations about their political record. It is said, too, that Mr. Colby, one of the new appointees, made his impression upon the president when as a leader in the "Bull Moose" movement he supported the democratic nominee. Discussion and consideration of the politics of men at such a time seems wholly out of place. Too much depends upon the action of the shipping board to give thought as to whether a man is a Republican or Democrat. The experience and qualifications of men for the great tasks before them as members of the shipping board should rule in the matter of selections. What the government needs is the very best men who can be secured for this great work, no matter what party brand they bear.

LOOKING AHEAD.

"The election to authorize the issuance of bonds to secure funds to pay the public improvement bond deficiency should have been carried," said John A. Bellatti yesterday. Continuing this well known attorney stated that in his opinion there was no doubt that the city is liable for this deficiency since the money had passed thru the hands of officers of the city, duly appointed. The same view is held by a number of Jacksonville attorneys and by a well known firm in Chicago.

But there is no use now in a general discussion of this fact because the people did not authorize the proposed bonds and the holders of sufficient bonds have only the course left of bringing suit against the city. Fortunately failure to authorize the bonds does not put a stop to city

government and it is assumed that the mayor and commissioners will proceed to make the best use of funds that are available as their judgment dictates. Running a city's affairs is not an amusing business for council actions that please one set of citizens will be displeasing to another. About the only course for officials in the average American city today is not to be too sensitive about public criticism and to go ahead honestly and earnestly striving to do the best for the municipality they represent. Public officials frequently fail to realize ideals; they often fall below the mark of efficiency which the public expects, and it is just as true that the American public is of vacillating mind and is easily turned from advocacy and support to criticism and opposition.

AN OLD, OLD QUESTION.

We often think we are discussing new problems and meeting new conditions until some one comes along, shakes us by the arm and quotes history to show that our problems are as old as the hills. This was the case when Henry L. Myers, senator from Montana, recently made an address in the senate in favor of nation wide prohibition. The senator used as his text the following resolution of the continental congress adopted Feb. 7, 1777:

Resolved: "That it be recommended to the several legislatures of the United States, immediately to pass laws the most effectual for putting an immediate stop to the pernicious practice of distilling grain, by which the most extensive evils are likely to be derived. It not quickly prevented."

With this as a text the Montana senator made an argument for prohibition as a means of conserving grain and for putting an end to a great amount of human misery that was very convincing. In advocating prohibition he maintained that he was only seeking to have enacted into law the advice of congress given in 1777 for food conservation.

WELL CHOSEN OFFICER.

The state centennial commission yesterday named Hugh S. Magill as director and he will enter upon the duties of the position August 1. The appointment of Mr. Magill is appropriate because he has been identified with the commission work for months past, is thoroughly versed in development of the state during the past ten or fifteen years and has been a close student of history. In addition he has the quality of forcefulness and energy and he will thus bring to the important position he is now to fill a great fund of resources. The opinion in which Mr. Magill is held in Springfield, where he is superintendent of schools, is well indicated by the fact that he has been granted leave of absence from the school superintendency during the period that his work as commission director will extend.

H. O. Crews, who has been appointed director of publicity, is an experienced newspaper man who has for some time been the editorial writer of the Springfield News-Record. He has a large newspaper acquaintance in Chicago as well as Springfield and is a very competent man for the position of director.

THE SENATORS FROM ILLINOIS.

Republicans in this state and residents generally have not been satisfied with the attitude of Senator Lewis with reference to the country's war program. The senator has been critical of the administration, a fault finder at times when patriotism should have resulted in his taking a higher ground. The senator has shown a peevishness and irritability which has characterized some other periods of his public service, but which has not reflected his general character.

While Senator Sherman's course has not been satisfactory he has by no means gone the length of Senator Lewis, who in the past few days has been waving the white flag vigorously and reading in the speech of Dr. Michaelis, the new German chancellor, a great many sentiments and suggestions that his colleagues in the senate are not able to find. With Senator Lewis it is a case of the wish being father to the thought, for he has found in the chancellor's speech the suggestion that the U. S. should make peace overtures and should seek at this time to bring about cessation of hostilities in Europe.

The senator went into detail in interpreting the Michaelis speech, suggesting a return to the European status which existed before the war, and in general outlining a plan, which any student of the question knows could not be acceptable to the allies or the U. S. after it has taken up the challenge of Germany and has entered this war so that democracy may continue to live.

Senator Lewis has the reputation of brilliance as an orator, he has a marvelous command of words and his diction is chaste and beautiful. In this instance his well rounded sentences fall flat, for they do not have the ring of true loyalty and patriotism. This war has gone so far that it cannot end without a victory for one side or the other, and it means that liberty and democracy must live or perish from the earth.

The Sherman attitude on the war question is not what it should be but that position is far and away preferable than the one taken by Senator Lewis in his "dove of peace" speech.

THE KILLIES

The Killies regiment of Canada is in Chicago this week to help recruit subjects of Great Britain who are in that city. The Chicago Tribune of the 24th carried this editorial:

"The Killies are here, piping grandly, numbering like heroes, and not too sensitive when he poked fun at their idea of correct dress for men. They in their turn can poke fun. 'Aren't your knees cold?' asked a slacker in London. 'Not as cold as your feet!' replied Killie. 'When the first Killies reached France there was great perplexity among the beholders. Some said, 'They've got mustaches, so they must be men.' Others said, 'They're women, for they've got on skirts.' To decide the question, a Frenchman walked up to a Killie, put it to him straight, came back, and reported, 'He says they're the Middlesex.' 'Grim all you like at the Killies, Harry Lauder does, and so do they in Scotland. Killies are a kind of sacred joke. Everyone grins, but every one admires. What uniform on earth has gone into battle more courageously or come out more covered with glory? And what other uniform is so ancient? Old records hint that the Celts in Gaul wore kilts. Roman legionaries had kilts; a sort of Great Caesar, dead and turned to clay, is not laughing at kilts but how he would laugh at the jokes we call trousers."

Rippling Rhymes
By WALT MASON

WAR PRICES

I went to buy a dachshund pup down at the village store. "The war has sent the prices up," the dealer roundly swore. "No matter what we buy, forsooth, the price thereof's a shame; and if the dealers speak the truth, the war is all to blame. They've raised the price of baths and shaves, of figtrees and of vines, of cradles, bridal wreaths and graves, of shampoos, shirts and shaves. They've raised the price until in vain we try to play the game, and hear the merchant prince explain that war is all to blame. So I'm heroic when I spend my coin for bread and grease, and say I'll do it to the end before I'll sue for peace. War's horrors cannot daunt my soul, tho' prices still soar high; so long as I possess a roil, I'll buy and buy, and buy. And when the fearful strife is done, I'll say to those around, 'I weighed too much to wield a gun, by nearly half a pound. But I blew in a goodly sum and thus gave timely aid, to make the wheels of commerce hum, amid the mists of trade.' And all the push will hear me praise, tho' I am shy of scars; they'll deem my bulging brow with bays, and touch me for cigars."

THIS DATE IN HISTORY

July 26, 1849—Illinois and Michigan Canal. From a St. Louis paper. The Steamer Timoleon down from La Salle brought the richest cargo received this season from that stream; one item alone comprised 672 boxes of boots and shoes, received from the east by way of the Illinois and Michigan canal, and consigned to various wholesale merchants in this city, who are beginning to receive their fall supplies and it is believed that the greater portion will come by way of the canal.

THANK THEATRE MEN.

The members of Co. B have for several weeks been grateful to the managers of Jacksonville theatres for the courtesy of their houses and the soldier boys have expressed the desire that the managers be extended appreciation thru the papers.

FUNERALS

Brown.

Funeral services for Edward Brown were held from the residence, 428 South Mauvaisterre street Wednesday afternoon at 2:30 o'clock in charge of the Rev. E. L. Fletcher, pastor of Centenary church. There was a large gathering of relatives and friends to pay a last tribute of respect to the memory of the deceased. The music was furnished by a quartet composed of Mr. and Mrs. T. H. Rapp, Mrs. A. C. Baldwin and Albert C. Metcalf. There were many floral offerings and the service was carried off by Miss Florence Parker, Miss Edna Sheppard and Miss Mabel Reid. Burial was in Diamond Grove cemetery, the bearers being John S. Sheppard, George Parker, Hunt Sargent, Thomas Meehan, J. Bart Johnson and W. H. Cobb.

Means.

Funeral services for Joseph Means were held from Hebron church Wednesday morning at 10 o'clock in charge of the Rev. G. T. Wetzel. Music was furnished by the choir of the church. The flowers were cared for by Miss Emma Johnson, Miss Irene Waterfield and Miss Emma Fox. Burial was in Yatesville cemetery, the bearers being John Stewart, Robert Stewart, Crit Hainelme, William Hopper, Joseph Wilson, and Fred Trotter.

Fozzard.

The funeral of William Fozzard was held Wednesday afternoon at 2 o'clock at Union church, near Virginia, in charge of Rev. Mr. Simon, pastor of the Methodist congregation at Bluff Springs. Burial was made in Union cemetery. Edward Peck, Bert and Eugene Peck and John Paschal furnished the music. Misses Mildred and Imogene Roegge cared for the many beautiful floral gifts. The bearers were Howard Turley, William Roegge, J. A. Schaefer, Henry Trisch, William Barbre and Lee Beard.

Among those who came from a distance to attend the services were Mrs. Mary Carpenter, Butler, Neb., and J. L. Fozzard, Lincoln, Neb., sister and brother of Mr. Fozzard; Mr. and Mrs. Bert Peck and Mr. and Mrs. Henry Broeker, Beardstown; Mr. and Mrs. T. B. Fozzard, Mrs. Lucy York, Mrs. Carl York and Mrs. Martin, this city.

WITH THE SICK

Miss Ruby Dailey, daughter of Samuel Dailey of Winchester submitted to an operation at Passavant hospital Wednesday. She is reported as getting along satisfactorily.

VIRGINIA CONCERT BAND FESTIVAL FRIDAY

Event Will Probably be a Financial Success if Weather is Favorable—Hughes Home Under Quarantine—Claude Meade Leaves for Training Camp—Other Virginia News.

Virginia, July 25.—Mr. and Mrs. Fred Fisher returned Tuesday from a two weeks visit with relatives and friends in Iowa.

The home of Rev. M. M. Hughes is under quarantine, two of the children have smallpox in a light form. Miss Bernice Hunt left Monday for Normal, where she will take a course in domestic science training. Miss Hunt has accepted a position in an academy in Olive Hill, Ky.

Mr. and Mrs. Clyde Fair and children left yesterday for a visit with relatives in Carrollton, Ill. L. O. Skiles of Chicago, is in this city attending County court. The case of the People vs L. O. Skiles, by a jury will be heard today. The case was brought before the Circuit court in March and was certified to the County court and has attracted wide spread attention.

The Virginia Concert Band festival is being boosted by the public in general and fair weather Friday evening is the chief element of a financial success for the boys.

Mr. and Mrs. Albert Brookhouse were the Sunday guests of Chapin relatives.

A recruiting officer from Springfield was in this city Tuesday trying to interest some of the young boys in the U. S. Navy life.

Mr. and Mrs. Henry Coleman are the guests of their son, Wm. Coleman at Auburn, Ill.

Mrs. Kate Duncan returned Monday from a visit with relatives at Auburn.

Mr. Harry Downing is in Joplin, Mo., in the interests of the lead and zinc mine stock holders of this place.

Siddons Armstrong and Miss Vida Dobson of Jacksonville were united in marriage at the Church of Christ manse Monday. Other licenses issued this week are as follows: Lloyd Standley and Mrs. Margaret O'Neill, both of Beardstown; Clifford Silkwood, Centralia, and Myrtle Swan, Beardstown.

Claude Meade departed for Chicago Tuesday where he will go into training camp at Houston, Tex. He was accompanied to Chicago by his brother, Roland Meade.

Mrs. Frances Humphrey, son Harold and Miss Frances Lusk, all of Jacksonville were visitors in this city Monday.

Miss Bernice Hiles of Rushville is the week end guest of A. Hiles and household.

Mrs. Viola Shaffer of Chandlerville was a business visitor in this city today.

Misses Mary and Mabel Turner of this city have been spending a few days in Keokuk, Iowa.

Miss Nellie Irvine is spending a few days with her sister, Mrs. Ed Krone west of the city.

Fred Shaffer and daughter, Nellie returned home yesterday from Bowen, Ill., where they attended the funeral of Allyn McAnally.

Miss Bertha Achue and Miss Helen Hughes returned from Normal, Ill., Tuesday, where they have been attending school.

Miss Frances Achue was Tuesday guest of Miss Bernita Fisher.

Women in commercial and professional life hold a better position in the United States than in any other country.

HOLD KAISER'S FLEET, ADMIRAL MAYO'S JOB

Described as 100 Per Cent Fighter and 100 Per Cent American.

Suppose—it may be far-fetched; just suppose it anyway—that the kaiser's fleet should break thru the English and French fleets and determine to carry the war to American shores. What manner of men has the American navy to stop it? It is not likely that anything like this is going to happen but, just the same, who would stop the Hohen-zollern fleet?

The man the American people must depend upon for that task, says Charles R. Michael in the Philadelphia Public Ledger, is Rear Admiral Henry T. Mayo.

Most everyone knows Mayo. He's fellow who demanded that Huerta salute the Stars and Stripes. He's the fellow who does not believe that because a Mexican ruler is not supposed to have the standing similar to that enjoyed by other rulers of the world, he can insult the flag and get away with it without a scrap.

Mayo is 100 per cent fighter and 100 per cent American.

He will take care of the kaiser's fleet, if it ever comes this way, as well as it is possible for any commander of an American fleet to do it.

He is neither short nor tall, has bright blue eyes, red hair, a firm mouth and a jaw that bespeaks courage. He always is deliberate in speaking, and the casual observer of his manner might get the impression that his heart is made of flint. But among the officers of the navy he is known as the most mild-mannered and big-hearted. He is popular with officers high and low, and that is a strong recommendation.

A Sturdy Vermonter. The commander of the Atlantic fleet comes from that sterling stock of Americanism which has abided in and near the Green Mountains of Vermont since the republic was an infant. He will be 61 years old next December.

When 15 years old Mayo entered Annapolis. He went to the Naval Academy to become a naval officer, and he spent his time there working to that end.

He was efficient the day he was detailed on the monitor Tennessee in 1877, and he made good use of every one of the years intervening until he hoisted his flag on the Atlantic fleet in June, 1916.

While Mayo's early service was on the old wooden type of battleships—the combination of steam and sail—he was making a scientific study of sea fighters, gaining a knowledge that has served him in good stead thru the development of battle-ships into floating machine-shops, mysterious combinations of strength and power. His early service was on the Monacaey, the Tennessee and the famous old Kearsage, which sank the Alabama during the civil war. Naturally, most of the naval service of those days was uninteresting, but Mayo was studying all the time. He received a detail to his liking in 1879, when he was put on the coast and geologic survey schooner Earnings and for three years he engaged in scientific work much to his liking. Then he was transferred to the Yantic and had another three years' cruise.

In Spanish-American War.

The United States Naval Observatory next saw Ensign Mayo, and he studied hard there. There was not much else for naval officers to do in those days except study, and the reason Mayo is known the world over is because he did study. When his detail at the naval observatory expired in 1886 he went back to the Earnings for another three years, most of which time was spent making surveys off the coast of what now is the State of Washington. Three years on the old training ship Jamestown were followed by service at the naval branch hydrographic office, at Port Townsend, Wash.

Mayo was a lieutenant at the outbreak of the Spanish war. He served on the gunboat Bennington, the little craft on which sixty men lost their lives in a boiler explosion in 1906. After the war he became a lieutenant commander, and when he reached his captain's grade he was placed in command of the California, an armed cruiser, then the flagship of the Pacific coast.

Before going on the California, Mayo saw service in the lighthouse branch, when he was lighthouse inspector. He was commander of the Albany and saw Asiatic service on that vessel, which was purchased from Brazil during 1908.

When Joseph Daniels became Secretary of the Navy he had a notion that the Mare Island Yard at San Francisco should be reduced from a first to a second class establishment, and he sent for the then commandant at that station, Captain Mayo, to come to Washington to talk it over. Mayo impressed Secretary Daniels, just as he had impressed every other official he met. Daniels decided at once that he needed a man of Mayo's type in Washington and had him detailed in the Navy Department.

Deserved His Spurs.

He made Mayo his aid in charge of the personnel of the service, the position bearing the same relation to the Secretary of the Navy that that of the President of the United States—a sort of expert on whom the civilian head of the naval establishment leans for advice.

After Mayo had been in Washington for a little while it became apparent to himself as well as almost every one conversant with affairs at the Navy Department, that he was scheduled for the rank of rear admiral. When he learned he was to get that honor he wanted to prepare himself for a sea command and he went to the Naval War College at Newport to prepare himself to "fly his flag." He went there in November, 1913, and scarcely six weeks later he received his commission and was assigned to command the Fourth Division of the Atlantic fleet.

Henry Oakes of Bluffs spent Wednesday in the city on business.

T. L. Minier, banker of Nebo, was a visitor in Jacksonville Wednesday. J. H. Silcox of Concord visited friends in the city yesterday.

Miss Alberta Brinsendine has returned from Waverly, where she was the guest of relatives.

R. E. Henry is improving with a coat of paint his residence at 1656 South Main street.

Mr. and Mrs. Eugene Wood of Franklin were in the city yesterday.

J. H. Abernathy of Chapin was a business visitor in Jacksonville Wednesday.

Mrs. Mabel Wright was among Franklin visitors in the city yesterday.

Mrs. Guy Seymour of Franklin was a visitor in Jacksonville yesterday.

Mrs. Ella Foster of Alexander was among Wednesday visitors in the city.

Frank Brown of Sinclair was attending to business in the city yesterday.

Miss Gladys Hamilton, of North East street, has returned from a vacation visit of two weeks in Mt. Sterling.

Miss Anna Colwell of Alexander left Wednesday morning for Amboy, Ill., to visit at the home of her sister, Mrs. L. S. Griffith.

A. A. Brinker of Springfield was attending to business matters in the city yesterday.

E. H. Hargrove of Sinclair neighborhood spent Wednesday in Jacksonville.

E. D. Beird of Bluffs was in the city yesterday on business.

The ladies of Westminster church will meet this afternoon at the home of Mrs. John Russell of 238 Caldwell street to sew for the Red Cross.

O. C. Lind and W. L. McKinney of Peoria were here yesterday on business.

Joseph Fanning has gone to Larimore, North Dakota, for a stay of several weeks.

Edward Livingston and family of Beardsboro are visiting relatives in the city for a few days.

B. R. Hieronymus, well known banker of Springfield, was a business visitor in Jacksonville yesterday.

Judge Norman L. Jones of Carrollton was in the city for a few hours Wednesday enroute from Springfield to his home.

Mr. and Mrs. Carlton W. Taylor started yesterday in their Dodge car for a trip to their old home at Batavia, N. Y. The journey will be about 800 miles and for the greater part of the distance the roads are well improved.

Mrs. Belle Dobson and grandson, Jay Hamilton, were in Arezville Wednesday visiting the family of Frank Kircher.

Mrs. Lillian Payton and son Watson and Mrs. Byron Virgin of East St. Louis are guests of relatives in this city and Franklin for a few days. They made the trip in their car.

Miss Ivy Mason who has been visiting her aunt Miss Ellen Mapes for several weeks has returned to Berkeley, Calif., where she has been engaged for the past two years in kindergarten work.

The Rev. J. O. Kirkpatrick was in Mt. Sterling Tuesday where he conducted funeral services. Friday Mr. Kirkpatrick will go to Astoria where he will deliver an address at a community picnic.

Mrs. W. I. Brown of West Independence avenue have returned from a visit with Mr. and Mrs. Archer, near Curran. Miss Alethea Brown has returned to her home after a visit of three weeks with friends near Springfield.

The Brooklyn Ladies' Aid society will hold a birthday social at the home of Mrs. Weigand, 223 East Michigan avenue, Thursday, July 26. Mrs. Lee Weigand, Mrs. Bulgar, Mrs. T. B. Reeve and Mrs. W. T. Moody will be the hostesses.

Rev. R. B. Wilson and family will leave by automobile next Tuesday for a visit with relatives in Cedarville, Ohio. Rev. Mr. Wilson will take a vacation from his church work during the month of August.

Rev. E. B. Landis and family will accompany them in another car a part of the journey and will spend two weeks with friends in Indiana.

Phillip Doolin, who has been for several years pressman for the Courier, recently made application for position in the radio service of the government. Mr. Doolin has been studying wireless telegraphy for more than a year and a half past and has a comprehensive grasp of the subject. He has not received report on his examination but because of his familiarity with the subject it is very probable that he passed.

RABJOHNS & REID

ALTON BRAKEMAN IS
SCALDED BY STEAM

Brakeman William Whitworth of Roodhouse was badly scalded by escaping steam Tuesday afternoon when the crown sheet on engine 412, pulling train No. 88, gave way.

Whitworth, who was head brakeman for Conductor Geo. McGinnis, was riding on the engine at the time of the accident, sitting on the front end of the fireman's seat box, in the corner between the boiler head and the side of the cab, and was thus unable to escape from the steam that came from the fire box.

The accident happened about two miles south of Mason City. Whitworth was brought to Passavant hospital where his injuries were dressed. He was burned about the face, arms and legs, but his condition is not considered as serious.

TELEGRAPHERS ASK
INCREASE IN WAGES

A committee representing 66 C. P. & St. L. telegraphers held a meeting with W. C. Hurst, president of the road, Wednesday afternoon. The men have asked better working conditions and 20 per cent increase in salary. The average wage now paid is \$62.80 per month.

The Rev. T. H. Marsh and family motored up Wednesday from Alton and are now guests of the parents of Mrs. Marsh. Mr. and Mrs. Samuel Anderson. In Alton they were visiting Mr. Marsh's father, the Rev. T. N. Marsh.

STORE COAL TO AVERT
FAMINE IS ADVICE

Fixing the Price Does Not Settle the
Question of Winter Supply

(By George H. Cushing, Editor,
"The Black Diamond.")

The announcement late in June that maximum prices at the mines had been fixed, was instantly followed by an almost complete cessation of storage buying on the part of the people. They seemed to believe that the matter of price was the only danger in coal. If they could get away from a high price, they were safe as far as fuel was concerned.

At any rate, the householders stopped buying; the retailers stopped delivering; and, while their horses stood idle in the barns, the coal piled up in the yards until the small storage space of the retail dealers was full. Then they themselves had to stop buying from the mines because they had no place to put the coal.

Then the public began to find out that while the mine prices were fixed the retail prices had not been. The householders began to see that while they might escape a high mine price, they might not escape paying a high price delivered. So they began demanding that the retail profit should be limited.

The movement to limit retail profits is well under way. F. S. Peabody is arranging for a conference of retail coal associations at Washington, the purpose of which is to fix the maximum profit which the retailer can get. This in turn will fix the maximum price at which the retail dealer can sell. When that action is taken, the public will be free from a danger of extortionate prices on coal.

The great danger is that the householders having no reason to fear a high price, will stop buying coal again as they did in the early part of July. That is the big danger of the American people.

Getting coal this year is a matter of time. It is a matter of getting working time at the mines; it is a matter of making use of railroad cars when they are available. Right now the railroads are operating under best conditions. The weather is warm, so that engines are working to maximum efficiency. The crops have not started to move. The troops and munitions are not taking up any large amount of transportation facilities. There is right now, a temporary lull in transportation, but it is only that which precedes the storm. Now is the time to move coal.

A little bit later, troops and munitions will be moving just when the railroads are being asked to move the crops. A little bit later there will be no surplus of transportation to move an excess amount of coal.

The people who are proceeding on the theory that with the price fixed, the danger is removed, are avoiding one danger merely to run into another. They are avoiding a high price, merely to plunge into a genuine fuel famine. This fuel famine can be avoided only, if the people take advantage of the summer months to move the maximum amount of coal. A famine cannot be averted if the people avoid buying coal when it is to be had.

BOSTON TO WELCOME
G. A. R.

Boston, Mass., July 25.—All arrangements are nearing completion for the entertainment of the national encampment of the Grand Army of the Republic, which will be held in this city next month. Festive with the weight of years, but with something like their old enthusiasm impelling them on, the "boys in blue" who went to the front in the '60s will converge on Boston from every nook and corner of the country to take part in what may be their last big encampment. With the veterans there will gather members of nearly a dozen allied organizations, and altogether Boston is preparing to entertain several hundred thousand visitors.

There is every reason to believe that the coming encampment will be one of the most notable that the G. A. R. has held in recent years. The present war enthusiasm prevailing throughout the country is expected to give added interest to the big reunion of the men who fought for the flag more than half a century ago. It will be the first time the veterans have met in New England in many years, and the folk of this section intend to show the old soldiers that they are liberal dispensers of hospitality.

For months the citizens' committee of Boston, which has charge of the encampment arrangements has worked industriously to meet the huge task of welcoming and entertaining the large number of visitors. A large fund has been raised to defray expenses. The hotels will be filled to capacity and many private homes will be thrown open for the entertainment of the veterans.

There will be several innovations in the encampment program. The gathering will have its formal opening on Sunday, when the veterans will attend a patriotic service at the Old South Church and listen to addresses by Commander-in-Chief William J. Patterson of Pittsburgh, Corporal Tanner and others. On Monday there will be a campfire of Symphony hall, at which the delegates will be welcomed by Governor McCall, Mayor Curley of Boston and Daniel E. Denny of Worcester, commander of the Department of Massachusetts. At this gathering also the greetings of the allied organizations will be received. These changes will prevent the usual interruptions to the business of the encampment, and save much time.

Tuesday will be parade day, and on Wednesday the national delegates will meet for routine business and the regular tour of duty. It is possible that the election of officers will take place on Wednesday afternoon. The business sessions of the sev-

Summer Clearance Sale

This sale is now in full blast. Buy now with confidence all the dry goods you may need for a year, at least, to come. Don't look for lower prices only at such a sale as ours. Goods are now sold at less than manufacturers' prices today.

STRIKE RESULTS IN NEAR RIOT

(Continued from Page 1.)

manding a minimum of 23 cents and a maximum of 35 cents an hour. Their scale now is from 21 to 30 cents an hour depending upon the number of years in the service.

No question of hours is said to be involved in the present controversy.

So far strike leaders declare, General Manager Mackie of the company has refused to meet them in a conference. Mr. Mackie on the other hand, says he has received no demands, and that the men, in quitting, are acting without precedent.

At 9:15 o'clock no serious injury had been reported as the result of minor clashes between street car men and small mobs in outlying districts of the city.

Employee Man-Handled

One man, F. P. McNeil, master mechanic for thirty years in the employ of the company, when he went with a wrecking crew to re-rail a car in the south district of the city, was jerked from his car and man-handled until it was necessary to take him to a hospital for treatment. Later he left the hospital and reported for duty with the wrecking crew.

It was impossible at 9:30 o'clock tonight to learn how many men were affected by the strike, both sides making contradictory claims. Many of the operatives however were not wearing uniform. It was estimated that at least half of the 204 employees of the company had responded to the call of their leaders to a strike.

General Manager Mackie stated tonight that if the police and sheriff's forces could not maintain order he would send every car to the barns and would make no attempt to furnish service.

"If something is not done to stop the attacks on cars, we can expect a recurrence of the riot of 1908," he stated. This view was not shared by county attorneys who were on the scene.

States Attorney Fred Mortimer came downtown with intention of gathering evidence to present to a special grand jury if the disturbance should reach serious proportions.

Mackie Makes Statement
"I am going to keep my cars running as long as I can," said General Manager Mackie. "If the civil authorities can't control the situation, I will send every car to the barns and they will stay there until the rioting is over."

"My men have been jerked from their cars and man-handled, and told that if they came back on the next trip they will be beaten into pulp. But 125 are still working despite these cowardly threats."

"No demands have ever been made on the company and I am entirely in ignorance as to what the men are seeking. They are not organized into a union and no vote was ever taken as to whether a strike should be called."

Large numbers of persons are in the downtown district apparently waiting to discover what the outcome of the strike will be tonight.

Judge Issues Injunction
Jerry Burdette of Peoria and 25 other alleged strike agitators were named in an injunction issued by Judge E. S. Smith in the Sangamon county circuit court late tonight restraining the defendants from interfering in any way with the operation of the cars of the Springfield Consolidated Railway Company. The injunction was sought by A. D. Mackie, general manager of the company and applies to any other persons, besides those named, who might come within its purview.

The injunction was the outcome of the strike declared at 5 P. M., by street car men who demanded recognition of their union and higher wages. Disorder accompanied the strike.

At 11 P. M., Burdette who earlier in the evening had been at a meeting of strikers in a downtown hall, could not be located.

Deputy Sheriffs began serving the notice of the injunction immediately after it was issued.

The restraining order recited the alleged fact that the persons named had made threats against car operatives and passengers.

Acting Governor John G. Oglesby was assured by Major General Thomas Barry, commander of the central department, U. S. A., at Chicago, that federalized troops would be available if serious trouble made their use necessary.

Sheriff Wheeler tonight was provided by the state with fifty rifles to be placed in the hands of his deputies.

COUNTESS PANIN RESIGNS

Petrograd, July 25.—The Countess Sophia Panin, recently appointed assistant minister of social tutelage in the new department of public welfare has resigned her post. A woman's military congress will be convened August 3.

ADOPT PROPOSALS FOR INCOME TAX

OTTAWA, May 25.—Government proposals for an income tax were adopted unanimously by the house of commons today. This is the first time such a tax has been applied to Canada federally.

Incomes of unmarried men above \$2,000 and incomes of married men above \$3,000 are taxed 4 per cent.

Incomes from shares in American companies are liable for taxation less the amount of the American income tax. American, British, and foreign corporations doing business in Canada are taxed upon income from Canadian business only.

The total war expenditure in Canada for July 20 of this year was \$388,627,000, it was stated and the total Canadian war expenditure elsewhere than in Canada including the maintenance of troops in France from September 1916 to July 20, 1917, was \$134,000,000 or a grand war total of \$522,627,000.

DISCUSS MEANS OF RAISING WAR REVENUE

WASHINGTON, July 25.—While awaiting the forthcoming estimates of \$5,000,000,000 or more under preparation by the executive departments to cover war expenses, the senate finance committee members discussed informally today how great a part of the total should be raised by taxation and on what commodities the increase should fall. Sentiment was widespread today that a considerable increase in tax levies would be necessary. Several senators predicted that the \$1,670,000,000 total of the bill as it now stands would be increased to at least \$2,000,000,000 with an authorization to cover additional expenses by a new bond issue.

The general feeling seems to be against any basic change in the bill. Committee leaders apparently most generally favor securing the additional taxes by increased levies on income and war excess profits, with addition of a few but comparatively minor tax sources.

CRITICISE RIVERS AND HARBORS' CONGRESS

WASHINGTON, July 25.—Attacks in the senate upon the \$27,000,000 rivers and harbors bill today centered in an indictment by senators of the national rivers and harbors congress. Senators Kenyon of Iowa and Jones of Washington, Republicans and King of Utah, Democrat, led in criticism of the organization's activities which were defended by Senator Ransdell of Louisiana, Democrat. That "back fires" have been set in their home states against certain senators and representatives by those interested in the organizations propaganda was charged by Senators Kenyon and Jones.

Senator King declared he could see no difference between the activities of the rivers and harbors congress and that of other organizations criticized for illegitimate lobbying.

GERMAN EMPEROR AT GALICIAN FRONT

COPENHAGEN, July 25.—The arrival of Emperor William at the Galician front yesterday morning is reported in a Berlin despatch. After hearing the report of the commander-in-chief, the emperor visited the troops on the Sereth.

The emperor awarded the order pour le merite with oak leaves and clasp to Prince Leopold of Bavaria, General Hoffman, Prince Leopold's chief of staff, and Major Franz, chief of staff of an army corps.

CORN BACKWARD BUT GROWING FINE

SPRINGFIELD, Ill., July 25.—Corn is ten days backward but growing fine, says the weekly crop report for Illinois issued today by the United States weather bureau. The report continues:

"Many places need rain, especially in the southern counties. Haying is in progress. Pastures are short in dry spots. The condition of fruit is satisfactory, but apples are dropping in the northern part of the state. Wheat is being cut in the north, and being threshed in the central, and being threshed in the southern division. The yield is good. The oats harvest is beginning in the north, is general in the central, and is mostly done in the south where the threshing has been."

BURY FIRST U. S. FIGHTER IN FRANCE

Washington, July 25.—An official despatch from Paris announces that Luis Reinhardt, a bluejacket, was the first American sailor or soldier to be buried abroad during the war with Germany.

Reinhardt was lost overboard from his ship at a French port and his body, recovered four days later, was buried with military honors in a little village grave yard. Local French officials took part in the funeral exercises. He was 19 years old.

WAR NEWS SUMMARIZED

Entry of women into actual fighting on the eastern front has been sufficient to imbue the recalcitrant Russians with patriotism. Many are still deserting in Galicia, leaving a virtually free road open for advance by the Germans and Austro-Hungarians. In the southern Carpathians only have the Russians shown some of their old fighting spirit. Here shoulder to shoulder with their Roumanian allies, they have captured several villages and broken the heavily fortified Teuton line on a wide front. In Galicia, the precipitate retreat of the Russians continues almost everywhere from the Carpathian foothills to the region around Tarnopol, the government apparently not having had time to put in force repressive measures which Premier Kerensky has promised to supply.

Nadorna, Stanislaw and Tarnopol and numerous smaller towns have been taken by the Teutons, who are now approaching the important railroad junction of Buczcz, 30 miles east of Halicz. The German emperor was an observer of the battle on the Sereth front and saw his men put down the only effort of moment that was made to hold them back—an attack by the Russians between Tarnopol and Trembowla.

Since the penetration of the German lines on a wide front near Krevo, in which the "command of death," composed of women, took a notable part, despite which large numbers of the Russians indignantly retreated to the old positions without the vestige of harassment by the enemy, Russians have not stirred to face the foe.

Hostilities on the Aisne front, where Germans have wasted men by the thousands in ineffectual attempts to break thru, have ceased. Only artillery duels continue. Early Wednesday on the California plateau, an attack was completely repulsed. The Germans have won 200 yards from the British east of Monchy-Le-Preux. They again resorted to the use of liquid fire. In northern Belgium the heavy artillery duel continues but there has been no sign of an infantry attack. British airmen have caused severe damage to the German submarine base at Zeebrugge and to the ton of Bruges.

ELECT HUGH MAGILL CENTENNIAL DIRECTOR

SPRINGFIELD, Ill., July 25.—Hugh S. Magill, Jr., former state senator and now superintendent of schools in this city, was today elected director general of the Illinois centennial celebration, commemorating the state's one hundredth birthday anniversary, by the state centennial commission. His work will begin August 1, and his salary will be \$7,000 a year.

The centennial commission also elected H. O. Crews of Springfield manager of publicity.

Mr. Magill, who was a member of the commission, stated later that he would ask for a leave of absence from his school duties and would give his entire time to the celebration. His election was unanimous. The ceremonies will begin with the unveiling of the new Lincoln statue in the state house yard, perhaps on Lincoln's birthday anniversary, February 12, 1918, and will continue thru the summer and fall, culminating October 6, which is the one hundredth anniversary of the inauguration of the first governor and state officers.

A monster pageant will be arranged for the summer, and the state fair is to continue thirty days.

MAKES FOUR APPOINTMENTS.

Fort Sheridan, Ill., July 25.—The following appointments were made today:

Noble B. Judah to be major Second Battalion.

George Richardson to be Captain Battery C.

Fred A. Anderson to be first lieutenant Battery A.

J. M. Patterson to be first lieutenant.

RUSS RETREAT UNPRESSED.

Petrograd, July 25.—The Russian guards corps defending Tarnopol retreated, unpursed by the enemy, says the official statement issued by General Headquarters tonight. But the Probrajensky and Semosky regiments remained faithful to duty and are fighting southeast of Tarnopol. In the streets of Stanislaw there were stubborn bayonet engagements. The populace threw grenades on the retreating Russian troops.

RECRUITING SHOWS DECIDED INCREASE.

Washington, July 25.—Under the stimulus of the draft, recruiting for the regular army showed a decided increase yesterday bringing in 2,294 with four districts yet to be heard from. This makes the total obtained since April 1st, 159,007, leaving only 23,891 to be obtained to bring the regulars to war strength.

PERSHING VISITS FRENCH FRONT

Paris, July 25.—General Pershing, accompanied by General Joffre yesterday visited the French front and reviewed incidentally one of the most famous battalions of French chasseurs which figured in the fourteenth of July review in Paris. General Pershing expressed high admiration of the dash and smartness of the men.

OFFER BOND AS PRIZE

New York, July 25.—A \$10,000 liberty bond was offered as a prize today to the first American aviator who bombs Berlin from the air as German airmen have been bombing London, by Sigmund Saxe, of this city.

GEN. RICAUT GOES TO TAMPAQ

Mexico City, July 25.—General Ricaut, governor of Tamaulipas, left last night for Tampico to take command of the situation resulting from the strike of 15,000 men employed in the oil fields there.

DISTRICT EXEMPTION BOARDS FOR ILLINOIS

WASHINGTON July 25.—District exemption boards for Illinois were announced today by Brigadier General Crowder as follows:

Northern District—Division No. 1: Dr. E. J. Doring, Jacob H. Hopkins, Harry Pratt Judson, Victor A. Olander, Theodore W. Robinson. Division No. 2: Ralph Crews, Dr. N. L. Harris, S. H. Merrick, Seymour Morris, George W. Perkins. Division No. 3: John V. Farrell, John Fitzpatrick, Frank Hamlin, Luman T. Hoy, Dr. J. L. Taylor. Division No. 4: A. H. Abbott, John C. Harding, Peter Peterson, Dr. Jeremiah H. Stealy, R. K. Welsh.

Southern District—Division No. 1: Dr. C. C. Harding, William O. R. Bradley, Charles Ford, Henry Herbert, Frank J. Quinn. Division No. 2: Charles Boschstein, Frank Farrington, John E. Hogan, H. G. Keys, Charles L. Uatton.

Eastern District—Division No. 1: Dr. W. F. Grinstead, William Noble, Frank T. O'Hair, John Rollo, Aloys Towners. Division No. 2: Dr. Thomas O. Freeman, W. F. Handshire, Free P. Morris, Thomas Moser, John Walker.

WILL EXTEND PROBE WHEREVER FACTS LEAD

WASHINGTON, July 25.—The trade commission issued a statement tonight saying that the meat inquiry started in Chicago would extend later wherever the facts lead.

"The federal trade commission," said the statement "is co-operating with the department of agriculture and it is intended to ascertain all facts and cost of the meat industry from the raising of the animals on the farms and ranges, thru the local markets, stock yards, packing houses, distributing agencies and retailers in to the hands of the ultimate consumer."

"There are two main purposes in this investigation: First to ascertain if this great business is conducted efficiently and economically and if not to point out, if possible the remedies for weakness or deficiencies. The second purpose is to ascertain whether or not in the conduct of the meat business or in any branch or phase of it there are any combinations in restraint of trade, any unfair practices that injuriously affect the public regarding prices or supplies."

ALLIED CONFERENCE IN PARIS BEGINS

PARIS, July 25.—A conference of representatives of the entente allies who are concerned in the military and political situation in the Balkans, began here today.

The conference opened with Alexandre Ribot, French premier and minister of foreign affairs addressing the gathering, saying:

"The conference in London April 28-29, France and England decided to confer anew in July to determine the future military action in the Balkans."

"Greece today is ranged on our side. Her accession modifies conditions and situations in the Balkans and we shall have to examine into this new state of affairs and study the composition of the army of the orient and how its future operations will be affected. All the nations fighting in the Balkans are represented here."

OPERATORS MEET WITH COAL COMMITTEE

WASHINGTON, July 25.—Representatives of coal operators of nineteen states met here today with the coal production committee to arrange for distribution of coal for government use. The question of price was not taken up.

Members of the committee pointed out that six of the eight million tons of coal required by the government are being drawn now from Virginia, West Virginia and Maryland. They urged that other coal states contribute an equitable share. A committee of two from each state was appointed to furnish information on which to base a plan of distribution.

EXPRESSES ADMIRATION

Washington, July 25.—In a letter to J. H. McShane, of Omaha, Neb., expressing admiration for the action of McShane's six sons in enlisting, President Wilson wrote:

"May I not turn away from the duties of the day for a moment to express my admiration for the action of your six sons in enlisting in the service of the country? They are making and thru them you are making a very noble contribution to the fine story of patriotism and loyalty which has always run thru the pages of American history."

CONFIRM ANNOUNCEMENT

Gloucester, Mass., July 25.—Official advice confirming the announcement that Siam has declared a state of war existing between that country and Germany and Austria-Hungary were received from the foreign office at Bangkok by Phis. Prakha Karavongse the Siam minister to the United States at the summer legation here tonight.

It was said at the legation, that Siam was open to suggestions from the entente allies as to the part the country should play in the war.

BELGIAN MISSION RETURNS TO CAPITAL

Washington, July 25.—The Belgian mission headed by Baron Moncheur returned to Washington tonight after a nine thousand mile tour of the country. The party has been away since July 1 and has visited most of the important cities of the middle and far west. He expressed great surprise at the development of the west since his last visit to the United States, seventeen years ago.

CUBS PURCHASE STOLZ

Chicago, July 25.—Pitcher Stolz, a lefthander, will report here tomorrow to the Chicago Nationals having been purchased by Owner Charles Weegman from Lacrosse, late of the Central Association.

SENATE CONFIRMS HURLEY'S APPOINTMENT

Forecasts An Early Start on the Government's Shipbuilding Program

Washington, July 25.—Confirmation by the senate today of Edward M. Hurley's appointment to the shipping board as successor to William Denman, who was forced out by President Wilson forecast an early start on the government's ship building program. Mr. Hurley probably will meet with the board tomorrow. He will be elected chairman at the request of the president.

The nomination of Bainbridge Colby to succeed Captain John B. White was not acted on today at the request of Senators Wadsworth and Calder of New York who desire that an inquiry be made regarding his political standing. No active opposition to his confirmation is looked for, however, by administration leaders. He was one of the founders of the progressive party but in the last campaign made speeches for President Wilson.

Rear-Admiral Capps, named by President Wilson to take charge of shipbuilding as general manager of the emergency fleet corporation conferred today with Major General Goehals, whose resignation the president accepted yesterday and will start to work tomorrow or Friday.

President Wilson had taken no action tonight on the resignation of Theodore Brent, vice-chairman of the shipping board who has been a warm supporter of Mr. Denman.

CLAIMS \$1,500,000 FOR HERSELF AND SON

CHICAGO, July 25.—Claims for \$1,500,000 for herself and her 13 year old son, Thomas Clark were filed today by Mrs. Martha C. Love of Pasadena, Calif., against the \$7,000,000 estate of John K. Stewart, late manufacturer of automobile parts. Mrs. Love is the widow of Thomas J. Clark, for twenty five years prior to his death in an automobile accident a business associate of Stewart. In two suits filed in the superior court, Mrs. Love charged that Stewart, who was executor under the will of her husband, violated the trust imposed on him and prevented her and her son from receiving their share of Clark's estate.

JURY TO CONTINUE SESSION

Bonne Terre, Mo., July 25.—After twenty three witnesses had been examined today by the grand jury holding an inquiry to fix responsibility for the recent trouble between American and foreign born miners in the Missouri Lead Belt, Prosecuting Attorney Matthews declared that the jury would probably continue in session for at least three weeks. Many of the men who are known to have had a part in the forced exodus of the foreigners are said to be leaving the lead district.

TRANS-PACIFIC STEAMER THIRTY DAYS OVERDUE

SAN FRANCISCO, Cal., July 25.—The Trans-Pacific Steamer Wairuna, with a rich cargo, is thirty days overdue at a Pacific port, from New Zealand, agents of the Union Steamship company, her owners, announced here today. Company officials expressed belief that she was disabled and drifting.

The Wairuna is of 1,994 tons net register and carried a crew of about forty men. She left Auckland, New Zealand, May 31.

The Wairuna carried flax, gum and other New Zealand products.

TORPEDO GERMAN STEAMER

Amsterdam, July 25.—The Handelsblad reports that the German steamship Nordenferry, with a cargo of coal, was torpedoed in the North Sea on Monday. She is aground off the south coast of Texel, Frisian Islands.

CONFIRM POSTMASTER OVER SENATOR'S PLEA

WASHINGTON, July 25.—A lively executive session of the senate today ended in the unusual confirmation of a postmaster over the plea of a senator that the nominee was personally objectionable. The postmaster was A. S. Snowden of Haragold, Ark. Senator Kirby presented the objection usually accepted as sufficient to block confirmation but Senator Robinson who recommended the appointment, asked that the objection be overridden. A warm tilt between the two Democratic senators from Arkansas preceded the vote.

LEONARD STOPS JOHNNY KILBANE

PHILADELPHIA, July 25.—Benny Leonard, light weight champion, stopped Johnny Kilbane, featherweight title holder in the third round of what was to have been a six round bout at Shibe Park tonight.

Jimmy Dunn, Kilbane's manager, tossed a towel into the ring when two minutes and 59 seconds of the third round was over.

At no time during the three rounds did Kilbane class with Leonard. Leonard won the first by a good margin, the second by even greater odds and in the third beat Kilbane helpless to the floor. Kil-

bane weighed 127 pounds and Leonard exactly 133, the lightweight limit. The six pounds difference aided Leonard. But he won because he completely outboxed the featherweight champion and outlast him during every minute of the fight.

A large crowd saw the fight, which was for a purse of \$20,000 evenly divided between the two men. By his victory Leonard does not take Kilbane's featherweight title as Leonard could not make the featherweight limit.

WANT 10 PER CENT NET PROFIT
Chicago, July 25.—Members of the Illinois and Wisconsin Retail Coal Dealers association meeting here today decided to ask the government to be allowed to charge prices that will net them at least ten per cent for handling and delivering coal. A committee was appointed to explain the retail situation in the two states to federal officials in Washington.

SEND I. W. W.'S. OUT OF TOWN.
Berndtji, Minn., July 25.—Thirty men and one woman all said to be members of the I. W. W., were corralled by 150 citizens armed with clubs here today and sent out of town on a west bound train. The citizens were aroused by the fire which Saturday night destroyed the second largest saw mill in the country.

PLANS ARE PERFECTED FOR EXAMINING SOLDIERS

Physical Tests Will Be Given at Rate of Eighty a Day by Local Board — Complete Instructions Not Yet Received

The Morgan county exemption board has not yet received final instructions from the war department covering the method of procedure in handling the men who will be chosen from the draft list in the first armed force. However, preparations are going on and Mr. Weir as president, Dr. Black as examiner and Mr. Hargrove as secretary are all busy. It is the understanding that before an order is sent out for any special number to appear before the board, that it is the duty of the board to enroll all names on the registry list in the order in which they were drawn at Washington. This means that the board's red number list will be entirely revised and that copies must be made for posting and to be sent to the

JOHN CARL
Jacksonville Shining Parlor
North Side Square

departments at Springfield and Washington. Other lists will be presented to the newspapers for publicity. As a matter of fact, these lists have already been given newspaper publicity.

Per Cent of Quota
It is the expectation from statements which have come from Washington that 200 per cent of each county's quota will be summoned first. This means, as previously stated, that the number from Morgan county will be 242. As soon as definite instructions on this point have been received from Washington the local board will send to these men formal notice setting forth on what date they are expected to appear before the exemption board. In addition to sending this written notice a list of the 242 men will be posted in the office of the board and given to the papers for publication. The procedure unless changed by a new government ruling, will be for one third of the 242 men to appear on the fifth day after the notices have been sent out one third on the sixth day and one third on the seventh day. Physical examinations are to be made of all men whether or not they are expected to claim exemptions. After the examinations have been completed those who wish to claim exemption have seven days within which to file such claims and thereafter three days to substantiate the claims with affidavit or other evidence.

Examination System
Dr. Carl E. Black, who is examiner for the board, has worked out plans which will systematize and greatly facilitate the physical examination work. The law requires that any man rejected by the examining physician must be passed on by a re-examining physician, and Dr. E. L. Crouch has been nominated for this position. Assistant examiners have also been nominated and it is assumed that in due course of time they will be formally designated as such. This list includes Dr. D. W. Reid, Dr. G. R. Bradley, Dr. C. E. Cole and Dr. G. H. Stacy.
With the plan that Dr. Black has outlined it will be easily possible to pass upon the physical condition of 80 men in a half a day's time. This examining work will be conducted at Armory hall. In an office there Dr. Black will be located and each man summoned will appear and make a signed statement with reference to certain general facts about himself. This statement includes various blanks which are later to be filled in by the examining physician.

Physical Measurements
The registered man will then take the signed statement he has made and will be examined at all of the seven stations in the armory. For example, he will first present himself for weighing and measurements as to height. Next the girth of chest will be taken and observation made about heart action. At other stations there will be measurements as to the head and abdomen and examination of the feet, eyes, ears, mouth, nose and teeth will all be examined. With a physician examining only along special lines it will be possible in this organized way to pass upon men with comparative rapidity.

All of the work must be done in the presence of at least one member of the exemption board and the expectation is that Mr. Weir and Mr. Hargrove will both witness all of the examinations. In addition Dr. Crouch, the re-examining physician, will be present and after any man is exempted on account of his physical condition he will be re-examined by Dr. Crouch. Dr. Black said yesterday that no persons will be permitted in the room except the men who are to be examined, the examiners and possibly some officers. It should be specifically understood by the men summoned to appear that if they are examined and accepted they will not be mobilized at once. It is expected that such mobilization will come in the course of a few weeks but men examined and passed upon favorably will return to their homes and will later be notified when the government desires them to prepare for camp training.

All Must Be Examined
There has been some comment on the unusual procedure that requires the physical examination of all men summoned under the draft, regardless of the fact as to whether they claim exemptions and are "exempt" under the provisions of the law. No doubt there is some reason behind this plan which does not appear at first consideration. It may be that the record of physical condition, even of those now exempt because of persons dependent on them, is desired. Then there is the suggestion that a man who finds himself physically fit, even if he has exemption privileges under the law, might decide that he will not claim the exemption privileges.

As previously indicated, the final instructions have not been received by the local board and no further steps can be taken until these directions come. However, the records are in such condition and the board's work so well organized that there will be no delay whatever as soon as the department's wishes have been clearly outlined. The specific points for physical examination referred to above are outlined in more detail herewith:
No. 1. Weight and height.
No. 2. Girth, chest measurements, heart action.
No. 3. Genito, urinary organs, hernia, hemorrhoids.
No. 4. General—head, abdomen and extremities; flat feet, etc.
No. 5. Eyes, vision, ears, hearing.
No. 6. Mouth, nose and throat.
No. 7. Teeth.

SEED IN ALFALFA
Isaac Watson, veteran alfalfa grower, has found seed in his alfalfa a very unusual occurrence east of the Mississippi river. He brought a sample of the seeded heads to the Farmers State Bank and Trust company where it may be seen.

HOUSEHOLD CONSERVATION

Illinois Housewives Must Constantly Guard the Food Supply.

(By Mrs. H. A. McKeene, Secretary, Department of Household Science, Illinois Farmers' Institute.)
The present war is placing a great responsibility upon the home makers of the state, for it has been said often the past few months that food is now the world's greatest need. The food problem, as it confronts us today, is one of the greatest we have ever had to solve, and we women have the most important part in finding the solution to the problem.
"Economy With No Waste" has been the slogan, but many have never known what true economy is, and have not practiced it. Eighty per cent of the buying for the household is done by the American women and this alone makes the burden of dispensing the family budget a large responsibility. Just now it is not only very necessary that we buy with the strictest economy, to conserve the foodstuffs, but that quantity for the family needs be carefully considered. Nutritious food at the lowest cost, that the most may be bought for the money expended, is an important thought for study.

Army Must Be Fed.
The food reserves are limited and it is not only the family at home which must be fed, but the soldiers at the front. To do our patriotic duty we must use only what we need and spare all we can for a hungry army. Anyone who hoards food when it is scarce becomes selfish and unpatriotic and this is another question that should be asked: "How much food have I the right to buy and store?" When flour and sugar are scarce, buying in large amounts raises the price of the real necessities of life for everyone. Illinois women will not be guilty of raising the prices, thus depriving anyone from being properly fed.

If we are not producing some of the foodstuffs in our gardens, raising poultry or growing fruit, it is important that only the foods which are plentiful and seem likely to be wasted are the ones to buy. Much money is wasted in buying foods at this time in various ways. One is ordering entirely by telephone and having every purchase delivered by the grocer. It is not uncommon in some places to see the housewife going to market with a basket on her arm, for seeing the foods, if the meals have been planned in advance, will assist in more careful buying and a wiser expenditure of money.
Indefinite buying, by price, rather than by weight, should be eliminated to avoid food waste. In place of buying the expensive cereal package with elaborate wrapper, why not substitute unpolished rice, cornmeal for mush, popcorn to pop at home, and in season why not partly dry corn from the garden, parch in the oven, grind thru the food grinder and serve with milk for breakfast?

A little grinder can be bought at a very low cost, which will not only serve for this purpose, but which can be used to grind the wheat, rye, barley and corn for the "war breads" for the family. Grinding the grain is not an unnecessary expenditure of time and labor, but only the return of work which was formerly done by the home makers and nutritious food at low cost was produced.

Putting intelligence and conscience into practice for the elimination of most of the kitchen waste is the duty of every woman during this great world war. We have no control over conditions, yet there is no need for ignorance in this great conservation movement, but every reason for co-operative effort of Illinois women to understand the great business of reducing the cost of food and at the same time providing more nutritious meals.

But remember, attractive and nourishing meals can never be served without careful planning and very wise buying.

Build that corn crib now. We have the right lumber.
Crawford Lumber Co.

THE RED CROSS AT THE CHAUTAUQUA
The Chautauqua management has arranged for a Red Cross meeting to be held under the big tent on the evening before the assembly opened on Thursday evening, August 16th. No tickets will be required and every one is invited to attend. The program will include former Governor Richard Yates and Mr. Robert J. Shaw recently from the battle fields of France who will speak on his experiences there and will exhibit articles used by the Red Cross on the battle lines. The music for the evening will be in charge of Helen Brown Read.

The management also provides for the Red Cross a well located tent and the Red Cross will provide nurses for first aid on the grounds and have in the tent exhibits of surgical bandages, etc., and knitted garments for the soldiers and sailors and will have in constant attendance instructors in knitting, etc.

WOODSON REVIVAL IS SHOWING GOOD PROGRESS

The Rev. Chester Birch preached another strong sermon in the evangelistic tent at Woodson Wednesday evening and interest in the meetings seems to grow stronger each night. The music is good and all who are attending seem highly gratified with the manner in which the meetings are being conducted.

Sunday afternoon there will be two big mass meetings, for men and for women. The men's meeting will be held in the tent and will be addressed by Mr. Birch. Mrs. Birch, wife of the evangelist, will conduct a meeting for women in the Christian church.
A new acetylene lighting system has been installed in the tent and everything possible for the comfort and convenience of the many who are attending was done.

TOPICS OF INTEREST IN CURRENT MAGAZINES

Vexing Problems of the War are Explained Simply and Clearly by Many Writers—Library Notes.

Never before have the better class magazines and periodicals contained articles of deeper and more varied interest, perhaps, than at the present time when the events of one month make out of date the thoughts and theories of the next. August is the month when the "special fiction number" has its vogue but even mid-summer reading has not succeeded in crowding from magazine covers the articles of general information and current opinion.

A random survey of the public library reading room brings to light many articles of special interest. The assortment there is a large one and the number of visitors from day to day indicates the number who have found that the library is a cool and comfortable place in which to read the best newspapers and periodicals of the day. During the summer, when the library is not open on Sunday, the current numbers of magazines may be borrowed at 8 o'clock Saturday evening and returned at 10 o'clock Monday forenoon. Back numbers of magazines may be borrowed for three days.

Miss Barrette, the librarian, has just completed the lists of books for the grade school libraries, arrangements for the purchase of which were made at the last board meeting. Upon arrival of the books the staff will begin immediately the work of cataloging and getting the volumes in shape to be taken to the grade buildings.

Some Timely Articles.
Open Air Swimming Pools in American Cities and How Cities Can Solve the Food Problem are two timely articles in the American City for July.

"The conquest of infection was a most urgent problem long before the Great War. Early experiences in the war upset all our notions as to how it could be conquered. Of late we have seen a great light as I shall show." These opening sentences are taken from an article in the North American by W. W. Keen, emeritus professor of surgery at the Jefferson Medical College, Philadelphia.
Eugene Delacroix has a very able discussion of the question "Shall the Brewing of Grain be Prohibited?" in the July Atlantic. In the same magazine Guglielmo Ferrero places the honesty of Italian aims before the public in his article "Italy and the Adriatic," and there is a short sketch by Frank Perry Olds on the disloyalty of the German American press which is thought provoking.

"The Foreign Legion in Pictures" by Sergeant Bouigny, a comrade of Alan Seeger appears in the new number of Scribner's Magazine. There is also an article well illustrated by photographs on the latest types of fighting aeroplanes. All this in the August fiction number.

"Why a Reputation for Beauty is a Handicap" and "How War Will Affect my Business" are two articles of interest in the August American. There is also a story by Ellis Parker Butler called "A Temporary Recovery" which shows how the counsel of a sensible wife helped a man throw off the shackles of endless debt.

The Public for July 20th has an appreciation of the character of Joseph Jay Pastoriza, champion of the people, who according to the article was the most progressive citizen Houston ever had. A short article on Japan, the United States and the war by Jokichi Takamini shows how freedom has been developing in Japan.

Russian Literature: The Quest for Life's Meaning by Louis S. Friedland is the leading article in the Dial this week.

Why France would not have welcomed a volunteer army led by Roosevelt is well set forth in "How We Can Help France" in the August Century. Herbert Adams Gibbons also discusses how France can aid us to overcome disagreeable national traits. "The Problem of the American Farmer" is written up by Frederick C. Howe. Marshall County Terauchi, the Kitchener of Japan and a real friend of the United States is well discussed by Eliza R. Selmdore. Eliza Selmdore has written a number of books on Japan.

The Annals of the American Academy of Political and Social Science is devoted to America's relation to the world conflict.

MAY GIVE SPECIAL BADGE
Washington, July 25.—Farmers' sons who have shown their patriotism by remaining on the farm, may be rewarded with the federal badge of honor of the United States working reserve. All state directors have been so notified it was announced today by William E. Hall, national director of the reserve.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by druggists.—Adv.

GREENE CO. ORCHARDS PRODUCE LARGE CROP

Yield Will Probably Exceed Two Hundred Cars of Apples—C. & A. Passenger Conductor Critically Ill—Big Wheat Yield on Lowenstein Farm—Other White Hall Notes

White Hall, July 25.—An apple crop that probably will exceed that of any other county will be harvested this season from the McClay orchards northwest of White Hall. It is estimated that the total production will exceed 200 cars. A. L. McClay, owner of the orchards, is a leading horticulturist of the state. He now owns approximately a thousand acres of orchard.

C. H. Burdick, for a number of years a passenger conductor on the Chicago & Alton, has suffered a general breakdown and will not be able to attend to his duties for some time to come. Mr. Burdick has for some time had the run between St. Louis and Bloomington, and is one of the most popular of the Alton's conductors.

Senator Eugene Lane of Lewistown, Montana, is here for a brief visit with his mother, Mrs. D. N. Henderson. Senator Lane went to Montana years ago as a mere boy and this is his first visit to his old home for probably thirty years. He has been engaged in the lumber business in the west and has built up a considerable fortune. He was elected state senator last fall.

Thomas Fraser and William Fanning who are now serving in the U. S. army, were week end visitors with home folks here. Fanning is with the first regiment band at Ft. Sheridan and Fraser is in Chicago with the aviation corps.

Wheat threshing was completed last week on the Lowenstein farm in the Hillview Drainage & Levee district, with a yield on 180 acres of 41 bushels to the acre. Mr. Lowenstein contracted for the sale of this wheat at \$2 per bushel. The farm will this year net him \$90 per acre, as he will get two cuttings of clover from the same ground.

Mrs. Charles Holbush and little daughter of Sweet Water, Montana, are guests at the home of Mrs. Holbush's parents, Mr. and Mrs. W. A. Winn. Mrs. Holbush prior to her marriage two years since was Miss Vera Winn. A dinner party was given in her honor Thursday at the home of Miss Mabel Richart, Miss Eloise Meisenbach of Pearl and Mrs. Lena Daughman of Winchester, assisting. Mrs. Frank Wade and Mrs. George Bell were among those present.

Joseph Shrader who left recently for Canada has written friends here that he is very pleasantly located at Provost. The wheat yield there is from 35 to 45 bushels per acre and general crop conditions are excellent.

The strike of employees of the White Hall Sewer Pipe & Stoneware company was settled today by the men receiving the full demand of an advance of 50 an hour and all returned to work this afternoon.

A copious shower between 4 and 5 o'clock this afternoon further enhanced growth. Corn continues to look excellent. Wheat sold at White Hall today for \$2.35.

SCHRAM & BUHRMAN
Watch Repairing.

Mrs. C. A. Barnes and Miss Elson Barnes returned yesterday from a ten days' stay at Lake Matanzas, where they have been with Mr. and Mrs. F. E. Farrell.

BROKEN HEAD DOESN'T STOP TROMBONE PLAYER

Lester Palmer of Beardstown, who manipulates the "slide" in the orchestra which gave the dance Wednesday night at Nichols park, is a game musician, well qualified for any kind of army service.
Members of the orchestra were on their way here early Wednesday evening and were hurrying along near Concord when the Cadillac 8 struck a bump in the road with such force as to throw Palmer into the top of the car. His head struck one of the metallic bows with such force that two deep gashes were received and the young man was brought to Passavant hospital where six stitches were necessary to repair the injury. The attending surgeon gave strict orders for "absolute quiet" but Palmer couldn't stay out of the game and before the evening was over was able to play the most difficult "run" without a quaver.

WAVERING MEN REMAIN IN SERIOUS CONDITION

W. R. Turnbull and Frank Curtiss, injured Tuesday morning when the car they were driving turned turtle, were in a condition Wednesday more serious than was at first supposed. In addition to his broken shoulder, Mr. Turnbull suffered internal injuries. Mr. Curtiss was hurt chiefly around the face and head and he was delirious Wednesday most of the time. The outcome is not certain in either case, but friends of the men hope sincerely that their improvement may be sure and steady.

H. M. Blalock of Taylorville was a business visitor in the city yesterday.

CROSSED PACIFIC ON CAPTURED GERMAN SHIP

Fred W. Harper of Manila, P. I., Made Voyage on Vessel Which was Interned Before U. S. Entered War
Fred W. Harper of Manila, Philippine Islands, who arrived in Jacksonville Wednesday for a visit with relatives of Mrs. Harper, has many interesting facts to relate regarding the voyage to this country, which was made on the Steamship "Mark" the second largest German vessel to be interned in Manila harbor. When was declared in April this vessel was of course taken over by the United States authorities and the cargo, a half million dollars worth of merchandise, principally silk, was sold at auction in the streets of the Philippine capital.

The Mark left Manila June 9 and the first stop was made at Hong Kong. The ship, which has a second captured vessel in tow, then went to Nagasaki and from there set out for San Francisco, reaching the American port July 11, without mishap.

Mr. Harper has for several years been employed by the government in Manila and upon returning within a few weeks will most probably take Mrs. Harper back with him. He is now at the home of his wife's mother, Mrs. Sanders Nunes, 821 North Main street. On the way to Jacksonville he made a stop at Pasadena, Cal., to visit Mrs. F. W. Fanning, a sister of Mrs. Harper.

E. H. Kreiling of Havana was called to the city on business yesterday.

A Small Price for Small Feet

HARVEST WORK PUSHED ON COUNTY FARMS

Most Farmers Will Stack Both Wheat and Oats—Seven Binders in 400 Acre Oat Field on Strawn Farm

The work of harvesting is in full progress in Morgan county and in most localities much of the wheat has already been stacked and the cutting of oats has about been completed. While many farmers expect to stack both wheat and oats, there are others who are now threshing. The present price range for wheat at the elevators is about \$2.20. Yesterday J. W. Rawlings, living east of the city, sold his wheat to the Arnold elevator at \$2.20 per bushel. He has thirty acres which will turn out a good yield and he expects to make delivery within a short time. The price now quoted for wheat is for delivery only thru a limited period as the elevator men, just like the farmers, are uncertain about future market conditions.

It is an unusual sight that any visitor sees on the lands northeast of Alexander belonging to Julius E. Strawn. The farm is operated by Cates Strawn as administrator. Men are busy there now cutting oats in a field of 400 acres. Seven binders, with the necessary number of horses and men, are being employed in this work and the yield is going to be very satisfactory. Fields of such size are very rare in this part of the country as lands for the most part are owned in much smaller tracts and consequently are fenced into smaller fields.

Adjoining this great field of oats is another one including about 400 acres of corn. It is of good color and gives every promise of an excellent return this year.

FRANKLIN M. E. PARSONAGE.

Contract has been let for the erection of a parsonage for the M. E. church at Franklin. The plans were drawn by C. W. Buckingham and the general contract has been let to S. P. Carter. The building materials will be purchased from W. C. Calhoun of Franklin. J. J. Mallen of this city will do the painting and decorating and D. C. Carson has the contract for brick work and plastering. The residence will be modern in every detail of the work and the construction work will begin at an early date. The building committee for the church includes Dr. J. B. Perkins, W. E. Douglas, J. L. Seymour and Mrs. Ida Miller. The Franklin edifice, which was built a few years ago, is one of the handsomest and most substantial that the M. E. church has in a town of the size of Franklin. The parsonage will be of a kind to accord satisfactorily with the church building.

Ice cream supper and platform dance, Alexander tonight.

FRANKLIN WOMAN INJURED.

Mrs. Lora Seymour of Franklin is recovering from painful injuries received Wednesday morning when she fell down the collar steps at her home, alighting upon the head and almost dislocating her neck. Tho still suffering from the shock and much shaken up Mrs. Seymour is expected to recover from effects of the accident within a few days.

MR. PERRIN RETURNS.

H. A. Perrin, city superintendent of schools, returned Tuesday night with his family from Normal, Ill., where he has been conducting a course in the State Normal university. The family are at home at their residence on West College avenue.

FRANCE IN EYES OF U. S. SOLDIER

John Sloan Writes to Parents Impressions of Army Life Near Front

The letter given hereunder from John Sloan son of Mr. and Mrs. Terrance Sloan of 999 East Lafayette avenue will prove of interest to his many friends in this city. Mr. Sloan is a member of a hospital unit organized in Chicago and sailed for France on the steamship Mongolia upon which the two nurses were killed during target practice by the gun crew. The letter follows:

U. S. Army, France, June 24, '17. Dear Mother:

I have not heard from you since writing you last, but that was only three or four days ago, and you must realize that neither of us is on the end of a two-day delivery. We have not, however, received any mail for the last five days, and we have all come to the conclusion that some ships carrying American mail have been sunk by submarines. We received a report last night that the S. S. Mongolia, on which we sailed, was torpedoed and sunk on her return voyage and that all lives on board were lost. We do not know how authentic that is, and just now we are classing it among the many rumors that float around the camp; there are many boats being destroyed by submarines at this time, but we are particularly interested in the welfare of the Mongolia, in that we are under the impression that she is carrying much correspondence from this camp.

Getting Accustomed to Work

We are getting pretty well organized by this time and are becoming more accustomed to the work every day. The officers with whom I am associated seem to be quite well pleased with what I am doing, in fact I understand I am being considered for appointment to a non-commissioned office—a sergeantcy no doubt; this is very encouraging and is something to look forward to, and if I don't get it now, you can rest assured that I will have it before I come back because I am giving them the best that is in me, and I am sure that earnest efforts cannot go on forever without recognition.

I am well pleased with the manner in which things have turned out for me since my enlistment, and I am in the best of spirits, as are all the other boys; their deportment and ability at their various tasks, since taking over this hospital, is the surprise and delight of our officers and the patients, in fact everyone with whom we have come in contact. On the trip over they had gained the impression that they had a pretty wild bunch on their hands, and, no doubt, anticipated considerable trouble in bringing the boys down to earth.

Country is Beautiful

The country hereabouts is very beautiful, but the people seem to be a century or two behind the times; a great many of the houses in the farming district are of the quaint, old type that you read of in books—thatched roofs, etc. Our camp is bounded on three sides by a range of very high hills, which circle around to the sea on the open side. It is quite a climb to the top of these hills, but you can see a string of people going up them almost continuously to the farm houses on the other side, where they can get a lot of fresh eggs and milk. I went over the other night to one of the farms, and found most of the food very expensive; the milk can be bought for almost nothing, but we paid 50c a doz. for the eggs. The French people pin a lot of hope on the American armies, but that does not hinder them from pinning some awful prices on them as well when they can get away with it. Taking the place as a whole, with its ships, aeroplanes and soldiers, I will say that it is a lively neighborhood, and we do not expect this army life to become monotonous for some little time.

Hoping you are keeping well, and with love to all, I am as always, John.

The Willing Workers and the Sunday School of Pisgah Presbyterian church will serve ice cream, cake and coffee on the lawn of Robert Hamilton (the George Moore farm) Friday evening, July 27th, beginning at 6 o'clock.

WON SECOND MONEY.

Sim owned by V. N. Hairgrove, and driven by Clark Green took second money in the 2:20 pace at Griggsville yesterday. The race was started Tuesday and Sim won the first heat when it was carried over until Wednesday on account of darkness. Gentry Belle owned and driven by J. F. Wohlfrom of Leavenworth, Kans., won the race.

Betty Boyd, owned by Foster and Green and driven by Clark Green, finished third, fifth and third, in the 2:20 trot thus winning fourth money. The best time was 2:19 1-4. The race was won by Mohayna in straight heats.

EATON-AYERS WEDDING TONIGHT.

The marriage of Miss Margaret Ayers to Louis F. Eaton of Brockton, Mass., will take place this evening at the home of the bride's parents, Mr. and Mrs. Walter Ayers, 905 West State street.

Those from a distance here for the ceremony are: Miss Katherine Schmidt of Chicago and Miss Constance Haggood of Boston, Mass., who were college friends of Miss Ayers at Wellesley, William J. Morden of Chicago who will act as best man and Mr. and Mrs. Oliver Williams of Quincy.

O. E. S. MEETING POSTPONED.

A social meeting of the Eastern Star, announced for today, has been postponed until Saturday afternoon at 4 o'clock.

COUNTY SUNDAY SCHOOL CONVENTION AT CONCORD

Good Program Arranged for Annual Sessions to Be Held August 28 and 29—Earlier This Year.

Tuesday and Wednesday, Aug. 28 and 29, have been selected as dates for the fifty-eighth annual convention of the Morgan County Sunday School association, which will be held this year at Concord. The program will in large measure consist of addresses by workers from the county. The Rev. Arthur R. McLaughlin, of Peoria, a state expert, will speak and the Rev. H. H. Peters, of the Illinois Christian Missionary society will have place on the program.

The convention last year was held at Murrayville Oct. 22 and 23. The convention program arranged by a committee composed of C. L. DeJew, Miss Eva Gaddis and Arthur Swain, chairman, is as follows:

Tuesday Morning.

9:00. Registration of delegates.
10:00. Open service of song and thanksgiving—County President.
10:20. Scripture reading and prayer—Rev. C. G. Cantrell.
10:30. Address, "What We May Expect from This Convention"—Rev. Arthur McLaughlin.
11:05. Song.
11:10. Address, "The Convention Key Word"—Rev. W. H. Hoffman.
11:45. Appointment of committees.
12:00. Noon recess.

Tuesday Afternoon.

1:30. Song service.
1:45. Bible study—Rev. W. E. Spoons.
2:45. Activities for Teen Age Department—Rev. Arthur McLaughlin.
2:50. Simultaneous conferences—Elementary division—Miss Nettie Hayden.
Secondary division—J. S. Findley.
Adult division—Edward G. Saye.
S. S. officers' division—Clarence L. DePew.
4:15. Adjournment from each conference separately.

Tuesday Evening.

7:30. Patriotic song service.
7:45. Devotional—Rev. A. C. Fairchild.
8:00. Address, "Seven Essentials of a Successful Sunday School"—H. H. Peters.
8:40. Music.
8:45. Address, "The New Mobilization"—Rev. A. R. McLaughlin.

Wednesday Morning.

9:00. Favorite songs, memory verses, sentence prayers.
9:30. Business session—Report of County President W. H. Crum.
Report of County Secretary Miss Flora Hall.
Report of County Treasurer T. M. Tomlinson.
Report of precinct and divisional officers.
Report of nominating committee.
Election of officers.
10:25. Music.
10:30. The School Organized for Service—Rev. A. R. McLaughlin.
11:25. Music.
11:30. Illinois Association Standards—Clarence L. DePew.
12:00. Noon recess.

Wednesday Afternoon.

1:30. Song and praise service.
11:45. Address, "The Child in the Midst"—Rev. A. A. Todd.
2:20. Music.
2:25. Address, "Rural S. S. Organization and Equipment"—Rev. A. R. McLaughlin.
3:50. Music.
2:55. Address, "Missionary Education in the S. S."—Rev. R. B. Wilson.
3:00. Music.
3:05. How This Convention Has Helped Me, and What I Will Try to Do—By Delegates.
3:35. Plans for the New Year—New President.
4:00. Adjournment.

Everything points to a bumper corn crop. Build those cribs now. Crawford Lumber Co.

LAST CANNING DEMONSTRATION

Mrs. J. Parker Doan will give the last canning demonstration of the summer in Trinity Parish house this afternoon at 2 o'clock. The demonstrations which have been given during the summer by Mrs. Doan on the canning of fruits and vegetables have proven of much value to the women of the community and have been well attended. This afternoon Mrs. Doan will demonstrate the proper method of canning peas, beans, cauliflower, carrots and corn on and off the cob.

NEGRO WANTED BY POLICE

On Monday a negro arrested two women in Myrtle street and asked them to read a letter, making the same statement that he did to a young woman on West State street recently. This probably was the same man and the same letter for the women reported to the police that it was an obscene letter. The police have a fairly good description of the man and hope to place him under arrest if he stays in the city. Chief Davis said yesterday that he hoped if anyone else was accosted by the negro that they would pay attention to his looks and make an immediate report to headquarters.

CANADA THISTLE

Canada Thistle, one of the worst and most persistent pests, is slowly spreading in this community. Many farmers do not know the pest. A few days ago a farmer brought to The Farmers State Bank and Trust Company some typical specimens of this thistle which he found on lands he had recently bought. The specimens are on exhibition.

BAPTIST MISSION PICNIC

The Baptist Mission Sunday school enjoyed a picnic on the lawn of Thomas F. Douglas, 1032 South Main street Tuesday. The children who ranged from the ages of three to nine years spent the day in an enjoyable manner. Refreshments were served by Louis Douglas and Katherine Wilson.

SAVING SOIL MOISTURE FOR THE WHEAT CROP

Early Plowing of Stubble Advised By Farmers' Institute Director

Illinois farmers are well informed regarding the need of conservation of soil moisture for the corn crop while they almost ignore its importance as regards the wheat crop. However, the abundance of soil moisture very often is the factor which determines whether the wheat yield will be large or small. The soil moisture problem in Illinois is different from the moisture problems of the dry lands of the west only in degree, — the same needs for moisture are present and the same practices in conserving it are required. On the dry lands the rains of this year, by a system of plowing and harrowing, are stored up in the soil to make the crop of next year. The practice in Illinois should be to store in the soil the rains of this summer and fall to make the wheat crop of next summer. We seldom realize how much rain and how long a time is required to saturate the deepest subsoil. A striking illustration of this occurred at the Illinois Experiment Station. Some cement tanks were built and filled with dirt to the depth of eight feet. They were then flooded with water and although the flooding was continued without interruption, I am told that the tile placed in the bottom did not flow freely for five weeks.

To obtain a well saturated subsoil on our hard packed stubble or meadow lands would require many weeks of rainy weather because on such ground much of the rainfall flows off on the surface. If, however, the farmer will open the surface of the ground so the rain is readily absorbed a much less rainfall will fill the earth and then by frequent harrowing there will be no loss by evaporation. Probably the greater loss of soil moisture, however, is caused by the growth of vegetation either of useful crops or weeds and grass. It has been estimated that plants take up by their roots and evaporate into the air thru their leaves 400 pounds of water to produce one pound of dry increase in weight. If a growing crop of clover or weeds increases in weight one ton to the acre, which is a fairly common gain in weight, it would therefore draw out of the soil four hundred tons of water per acre.

Vegetation Takes Moisture

We farmers are well aware of how dry the soil is after a large growth of any kind of vegetation. We should therefore, guard against such growths of vegetation previous to the wheat crop, in order that we may have the moisture with which to make this same crop growth in the crop of wheat. In my own farm practice I usually sow wheat after oats and usually grow an early variety of oats and try to thresh the oats as early as possible. This permits the preparation of the land for wheat toward the last of July and my first effort is to destroy all living vegetation so as to conserve the soil

WINCHESTER

Misses Isabel and Shirley Henderson left Wednesday morning for a visit with relatives in the state of New Jersey.

Carl Markille left Tuesday for St. Louis to join a company of the national guard.

Russell Hamilton, who has been in Winchester for a visit with his mother and sister, has returned to his home in Peoria.

Funeral services for Miss Elizabeth Townsend will be held this afternoon at 2 o'clock at the family home. The Rev. C. W. Caseley, pastor of the Methodist church, will be in charge.

Misses Dean Kincaid, Janice Taylor, Helen Frost, Irene McCullough and Grace Leach were guests yesterday of Miss Alma McCullough at the home of the hostess' parents, Mr. and Mrs. Elmer McCullough, near Riggston.

F. F. Clark of Manchester and his son, Edward Clark, Dexter, Mo., together with Mr. and Mrs. Thomas Cuddy of Roodhouse, were calling on friends here Tuesday.

Mrs. Fred H. Allen spent Tuesday at the home of her daughter, Mrs. Elmer McCullough of Riggston.

Court was in session Monday and Tuesday and adjournment will be taken probably this evening.

DESIRE FARM ADVISOR

A series of township meetings to stir up interest in the proposal to secure an agricultural advisor are being held thruout Sangamon county. One such meeting will be held at Rochester tonight at 7:30 o'clock, with H. H. Parks, assistant director of the state agricultural department, as the principal speaker.

SCHRAM & BUHRMAN Watch Repairing.

ATTENDED CENTENNIAL COMMISSION SESSION

Dr. Edward Rowe was in Springfield yesterday to attend a meeting of the state centennial commission. The committee of which he was a member had been appointed to investigate the matter of a director for the centennial and a report was made favoring Hugh S. Magill for this position. The commission approved the selection made.

LICENSED TO MARRY.

Arthur W. Kelley, Jacksonville; Elsie Kirk, Infield.
Guy Moulton, Waverly; Mabel Gates, Waverly.

AT BURLINGTON LAKE

A large party of young people went from Franklin to the Burlington lake Wednesday afternoon and enjoyed a pleasant picnic outing.

Mrs. H. J. Rucker of Carlisle is at the home of her parents, Mr. and Mrs. George Glenn, South Main street. She came here from Galesburg, having accompanied Mr. Rucker on a tour in the interests of Blackburn college.

NATION WATCHES STATE RED CROSS DRIVE

Gen. Manager Gibson of National Society Tells of Great Need — Mr. Crabtree Suggests "Every Member Get a Member" in Morgan County.

"Every member get a member" is the slogan that Chairman Crabtree of the Red Cross organization committee has suggested as a certain method for so extending the Morgan County Red Cross membership that this county becomes the banner one of the state. If members start off earnestly in this work and with this slogan as a real motto it will be a very short time until the membership has been so increased that the percentage is far in excess of 25 per cent of the population, the highest thus far attained in any other county.

In line with this local appeal for more Red Cross members is the following statement from Harvey D. Gibson, general manager of the American Red Cross, in which he points out very succinctly that even a greater work than anticipated awaits the Red Cross organization. A statement from W. D. Thurber, associate director of the Red Cross for this state, is also appended:

Need Intensified.
The need of the American Red Cross for a largely increased membership has been intensified and vividly illustrated by the calling of men for war duties from a million American homes. Every community will give its quota of men. Every community is being brought face to face with the fact that these men—many of them at least—will suffer from sickness and from injuries received in battle. They will need the tender care of the Red Cross. Each community will want to be a part of the Red Cross and thus help care for the sick and wounded. It can effectively help through large and active Red Cross chapters.

State of Ohio, City of Toledo, Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

Which for You?

THE MAN-MADE DAYLIGHT OF
Warner-Lenz

Or the dangerous, criminal glare of the ordinary lens.
The Warner is the most scientifically constructed headlight lens known—176 lenses in one.

Rival lenses argue other theories, but engineers don't accept them. One needs an all-embracing light, and the Warner-Lenz gives that. Warner-Lenz light is the same in every position. Turning of the lens in the door of your headlamp does not affect it, nor does rise and fall of the car.

SEEK FACTS ABOUT VEGETABLES AND FRUITS

State University Agricultural Department Gets Information from Every County in Illinois—May Have Special Campaign for Saving Surplus.

Recently W. H. Handschin, vice director of the agriculture extension service at the university of Illinois, sent telegrams to a representative in each county of the state seeking information about the quantities of fruits and vegetables raised. The purpose of seeking this information was to learn whether or not it is advisable for the university to make special effort to promote canning and drying in order to conserve the surplus and add to the general sum total of the state's food supply. The reply from this county was sent by Frank J. Heintz. Statements covering a number of counties in the state are listed below.

In response to a telegram, quoted below, sent by Mr. W. F. Handschin, Vice-Director, Agricultural Extension Service, Urbana, to persons representing each county in the state, the following replies, giving briefly, information regarding the surpluses of home grown fruits and vegetables in the different counties, were promptly received by wire:

Telegram Sent to Persons in Counties
Champaign, Ill.,
July 12, 1917.
Secretary Agriculture Houston requests I advise by wire my best judgment on following points: Is there considerable surplus of home grown fruits and vegetables? Are canning and drying preparations sufficient? Does situation warrant extraordinary efforts to promote canning or drying in household or communities during next six weeks? Will you get information for your county by telephone and conference and report by Friday noon? Wire collect Champaign.

(Signed) W. F. Handschin, Vice-Director, Agricultural Extension Service.
Telegrams Sent by Persons in Counties
Adams
Quincy, Ill.
Shipped out good many berries, none went to waste. Considerable surplus vegetables but doing lot of canning. Some need of drying perhaps. Shipping out quite a few vegetables, too.
E. W. Rusk, County Agent.

Telegrams Sent by Persons in Counties
Brown
Mt. Sterling, Ill.
Fruit supply normal, no peaches, fair apple crop, big crop small fruit, enormous potato and vegetable crop, the interest in canning and drying fruits and vegetables great, no community effort known or considered as needed.
W. D. Mobley.

Telegrams Sent by Persons in Counties
Cass
Beardstown, Ill.
In regard to your request Cass County has a fair average of fruit and abundant supply of vegetables for home consumption, most every family has a garden for green beans, and tomatoes are being raised for canning purposes.
Mrs. J. M. Nixon.

Telegrams Sent by Persons in Counties
Champaign
Champaign, Ill.
Do not believe campaign such as suggested would accomplish anything at present. Although our farmers have greatly increased their gardening this year, there is no excess going to waste. Any excess produced thus far amply taken care of by canning.
C. A. Oathout, County Agent.

Telegrams Sent by Persons in Counties
Canton
Canton, Ill.
No surplus of fruit, large surplus of garden truck without any market, help is too scarce to handle it to any advantage.
A. W. Miner, County Agent.

Telegrams Sent by Persons in Counties
Hancock
Carthage, Ill.
Considerable vegetable surplus, large consistent effort to conserve food, good interest in few canning demonstrations, more demonstrations could be held.
J. H. Lloyd, County Agent.

Telegrams Sent by Persons in Counties
Jersey
Jerseyville, Ill.
Agitation necessary to arouse people on food canning and drying.
J. W. Becker.

Telegrams Sent by Persons in Counties
Kane
Geneva, Ill.
Surplus fruit cared for, will have small surplus of vegetables that should be preserved, would like to have a few canning demonstrations during next few weeks.
J. E. Readhimer, County Agent.

Telegrams Sent by Persons in Counties
Kankakee
Kankakee, Ill.
No surplus of home grown fruit, large amount of vegetables are being canned by women of county, extraordinary efforts are being made by them to preserve all stuff suitable for canning.
J. S. Collier, County Agent.

Telegrams Sent by Persons in Counties
Kendall
Yorkville, Ill.
Have just finished conducting canning school for Kendall county, so we do not feel need of doing more along that line this year.
Mrs. B. J. Stumm.

Telegrams Sent by Persons in Counties

Locally no surplus fruits, housewife seemingly alive to situation canning more vegetables than usual, extra effort not necessary.
Mrs. J. P. Stout.

Telegrams Sent by Persons in Counties
Schuyler
Rushville, Ill.
Fruits are scarce in Schuyler Co. and no surplus of vegetables beyond what can be cared for, more attention than usual will be given to canning and drying.
Alice M. Dyson.

Telegrams Sent by Persons in Counties
Scott
Winchester, Ill.
Ordinary fruit crop, considerable surplus vegetables, all cared for with great enthusiasm by progressive housewife all over the county.
Mrs. J. M. Overton.

Telegrams Sent by Persons in Counties
Tazewell
Washington, Ill.
Plenty of fruit and vegetables, every family is canning a surplus and many are drying, big crowds at canning demonstration today, situation already well in hands.
E. T. Robbins, County Agent.

Telegrams Sent by Persons in Counties
Vermillion
Danville, Ill.
No surplus home grown fruit but indications of surplus of vegetables, reports indicate little effort in drying of fruits, but canning and preserving fruits practiced generally, high price of sugar also discouraged preserving fruits, think effort needed to stimulate winter care of corn, potatoes and other vegetables, county reports said people would welcome government instructions on these points and we will gladly co-operate in work.
P. L. Willis.

A Tight Wagon Bed and a Good Wagon

At the present price on all grain will more than pay for itself this year. You need them and should be prepared. We are prepared and it is our pleasure to serve you.

A SQUARE DEAL TO ALL
NO PROMISE MADE THAT IS NOT FULFILLED

GEARS—All oak and hickory, bone dry, all parts soaked in boiling oil before ironing, painted by hand three coats oil and lead, 1 coat A No. 1 varnish. Axles trussed and well braced. Bolt plates 2 inches longer than other makes, making bolster stand up better. All irons full thickness, well bolted or riveted on.

WHEELS—Bone dry oak. Solid one-piece oak hub, "the best hub made." Spokes A No 1 white oak, none better. All wheels soaked in boiling oil before ironing. Tires are put on hot, the only correct method. If it was possible to make a better wheel Miller Wagons would have them.

BEDS—Strictly first class, bone dry southern poplar sides, 7-8 inch thick full. Extra heavy ironing, 5 hard wood sills, double bottom overbolts bolsters. Bottom best grade long leaf southern pine, tongue and grooved. Metal grain cleats. Positively grain tight. Extra well painted, old fashioned system brushed on best oil and lead.

No matter what you pay, you cannot buy a better wagon. In use all over the west. Made of bone dry stock, the lightest running wagon on the market. First wagon built in 1867, and built just the same ever since. The biggest value known in a wagon. Come in and we will show you.

STRONG GAME IN FIRST**Chicago Wins Second Game in First
Inning by Knocking Fisher Out of
the Box and Scoring Four Runs.
New York, July 25.—Chicago de-
fated New York in both contests of
a double header here today by scores
of 4 to 1 and 5 to 1. In the first
game Cicotte pitched his usual strong
game against the Yankees. The vis-
itors won the second game in the
first inning when they knocked Fisher
out of the box, scoring four runs.

with fingers! Doesn't
hurt a bit!A noted Cincinnati chemist discov-
ered a new ether compound and called
it freezone and it now can be had
in tiny bottles as here shown for a
few cents from any drug store.You simply apply a few
drops of freezone upon a
tender corn or painful cal-
lus and instantly the sore-
ness disappears. Then
shortly you will find the
corn or callus so loose that
you can just lift it off with
the fingers.No pain, not a bit of
soreness either when ap-
plying freezone or after-
wards and it doesn't even
irritate skin.Hard corns, soft corns or corns be-
tween the toes, also toughened cal-
luses just shrivel up and lift off so
easy. It is wonderful! Seems mag-
ical. It works like a charm. Gen-
uine freezone has a yellow label. Do
not accept any except with the yellow
label.—Adv.**HOW THEY STAND**

Edward P. won; Mussell Shell,
second; Canute, third. Best time—
2:06 1/4.**CAMERA SCORES BULL'S EYES.**London, July 25.—A saving of
ammunition in the training of a
marksman has been made possible
by a remarkable apparatus recently
patented by an English inventor.
The invention can be easily attach-
ed to a rifle, and consists of a small
cylindrical camera which fastens to
the under side of the barrel, and is
fitted with a telescopic camera de-
vice, so positioned that its line of
focus is parallel to the gun barrel.
Immediately in front of the trigger
of the weapon a second trigger is
placed, which is connected with the
camera shutter by a wire.
When a marksman has aimed his
gun and pulls the trigger, the camera
trigger is operated just an in-
stant before the gun trigger, and
consequently a snap shot is secured
of the target that the gun was point-
ed at. The position of the target as
it appears on the plate or film will
indicate the accuracy of the shot.**NEGRO TEACHERS MEET
IN CONFERENCE**New Orleans, La., July 25.—Many
of the leading instructors of the ne-
gro youth in the south have come to
New Orleans to attend the annual
convention of the National Associa-
tion of Teachers in Negro Schools.
The session were opened today and
will be continued through the re-
mainder of the week. W. H. Single-
ton, of Chattanooga, is the president
of the association and the presiding
officer of the convention. All indica-
tions point to a successful and in-
structive gathering, the members of
which will be addressed by the lead-
ing educators of the United States.Miss Helen Murphy and brother,
George are visiting for a few days
with their cousin, J. Everett John-
son in Franklin.**BROOKLYN WINS FROM

of the big show so often that it is
hard to keep tab on the veteran
twirler.St. Louis fans complain that too
many "bonehead" plays have killed
the Browns' chances to get any-
where this season.Williams, Cicotte, Russell and
Danforth of the White Sox are
among the leading dozen pitchers of
the American league.Pittsburgh fans claim that Pitcher
Mamaux lost his effectiveness when
George Gibson, his old catcher, was
sold to the Giants.Despite his pastime with a tail-
end team, Max Carey of the Pirates
continues to be the National league's
greatest base-stealer.The Pittsburgh Pirates are badly
in need of a seasoned first baseman.
Bezdek has been playing any mem-
ber of the team willing to tackle the
first station.From present indications Walter
Johnson, Washington's star pitcher
is going to experience about the
worst season this year that he has
had since he first entered the big
yard.Ray Chapman is giving Tris
Speaker quite a tussle for the hon-
or of being Cleveland's brightest
star. Chapman has had a wonderful
season in all departments of the
game.St. Louis seems to be inhabited
by heavy hitters this season. Cruise
Paulette and Hornsby of the Car-
dinals and Rummel and Sisler of the
Browns are among the top-notch
big league batsmen.Jacques Fournier, the former
White Sox player now with Los An-
geles, is wallowing his way to fame
in the Pacific Coast league. He is
hitting well over the .300 mark.Napoleon Lajoie has his Toronto
team in the thick of the fight for
the International league pennant.
The old Cleveland star is playing
grand ball himself, in addition to
rendering efficient services as the
team's pilot.Although Indianapolis looks to
have the American association pen-
nant just about cinched, the St. Paul
team has been coming fast of late
and giving the Indians a good run
for the honors."Gavvy" Cravath continues to
make good his record of being one
of baseball's greatest sluggers. He
is the only member of the Phillies
traveling in the National league's
select circle of batsmen.William Leard of Seattle, who has
joined the Brooklyn team, comes to
the Superbas with a reputation of
being the best second baseman in the
Northeastern league, and also a
pitcher of considerable promise.Looks as if the Braves picked the
right ones when they landed Powell
and Rege in a deal with Providence.
The Stallings tribe have been play-
ing great ball ever since the pair
of former Grays arrived in Boston.It has been many a day since an
umpire was panned so hard all along
the line as has Lord Bacon this sea-
son. Looks as if the National league
umpire has been chucked in
among the goats.Manager Griffith says he is satis-
fied with his Senators because they
are always trying. It's a trying team
all right, according to Washington
fans.

Willard STORAGE BATTERY
SERVICE STATION

(Copyright registered, 1917)

Ready!

In nine cases out of ten, a dead bat-
tery means a dead car, for the battery
is the source of ignition in 90% of the
1917 cars.

If you're one of the nine, when you
want battery service, you want it
at once.

And we're always on the job to give
it to you.

No matter whether you came in to
have your battery merely tested, or
completely rebuilt, we're *there* with
men and equipment to take care of you.

If your battery needs repairs or re-
charging we have a rental battery for
your use whatever make or model of
car you own.

Willard Service is complete, it's
always ready.

PROSPECTS OF LIBERAL

IMPORTS LOWER CORN
Despite something of a Reaction
Prices Close 3/4 to 3/8 of a Cent
Net Lower—Wheat Finishes 6 to
13 Cents Down

Chicago, July 25.—Prospects of liberal
imports of corn to the United States
from Venezuela gave considerable im-
petus today to the downward swing of
the corn market. Despite something of
a reaction prices closed 3/4 to 3/8 net
lower with September \$1.62 and Decem-
ber \$1.14 to \$1.14 1/2. Wheat finished 6
to 1 1/2 down and oats 1/4 off to 1/4 ad-
vance. Provisions gained 2 1/2 to 3 1/2.
It was the first time in history that corn
prices here had been affected by
conditions in Venezuela. Notwithstanding
that only a single small cargo had
yet arrived in this country the fact
that the Venezuelans were said to be
about to harvest a big crop, and that
most of the surplus was perhaps des-
tined for shipment south to the United
States attracted instant attention. Such
a new source of supplies was generally
welcomed as affording a likelihood of re-
lief at least in part for the temporary
reverse shortage in domestic stocks. Bear-
ish sentiment was also increased by
favorable weather today in Illinois and
most of the other big producing states
and by an attendant general improve-
ment of crop reports except from West-
ern Kansas where drought still persist-
ed. The awarding of several large govern-
ment contracts for industrial supplies.
The negotiation with the consent of the
authorities at Washington of a \$100,000
loan to Canada by private bankers is not
unlikely to be followed by similar character it is intimated.
Distinct heaviness was shown by a
variety of bonds, rails and the interna-
tional issues, recessions extending from half to one
per cent. Liberty 3 1/2 held at 96 1/4 to
96 3/4. Total sales (par value aggregated)
\$2,250,000. U. S. bonds (old issues) were
unchanged on call but the coupon 48
rose 1/4 and registered 48 1/2 per cent on
sales.

OLD JACKSONVILLE

The March-Mathers-Snyders-Pattersons

By Ensley Moore

(Member Illinois State Historical Society)

Genealogical exploitation is rather a harrowing work to the explorer; considerably like the Cook-Pearry discovery of the North Pole.

Some families or connections seem to spread out a good deal as do the United States, and then Alaska and the Philippines. Any one who has seen a full grown family tree, or a chart of an extended tribe has had an afternoon's work to trace and understand. Still the tree is one of the easiest ways of studying up on a family. But when the people have to be dug out of memory, books, newspaper scraps and letters there is something doing, and the explorer earns all he gets.

Ireland gave up the beginnings of the people named at the head of this column about a century ago; that is some of them, and the race has increased in this country very considerably since then, as will be seen by a careful inspection of what follows.

The Marches

James March was born in Ireland, where, Jan. 18, 1804, he married Eliza Drennan. She was born on the Green Isle, June 20, 1780, and she lived long and traveled far, before her death, here, Sept. 3, 1853. James died in the old country.

James and Eliza (Drennan) March were the parents of:

(1) Edward March, born in Ireland, Dec. 24, 1805. He married Harriet Stevenson, near Jacksonville, June 24, 1830. Mr. March died near Jacksonville, April 27, 1854, of cholera.

(2) Margaret March, born in Ireland, Sept. 2, 1807, near Inniskillen. Married William Patterson, in Jacksonville, July 31, 1831. She died in Jacksonville, April 13, 1882. They lived on the south side of College Avenue, just east of Mauvalterre street, for 42 years.

(3) James March, born in Ireland June 16, 1809. Married Ellen Johns in Kentucky, Oct. 6, 1831. He died in Kentucky in August, 1864. Mrs. March died in October, 1849.

Edward March and his wife Harriet (Stevenson) were the parents of:

Charles, born near Jacksonville, Oct. 24, 1833. He married Isabella Wight, at Moweaqua, Ill. May 22, 1860. Mr. March died at Los Angeles, Calif., April 5, 1916.

Elizabeth, born near here, Feb. 18, 1836. Married William Morton at Jacksonville, Aug. 22, 1854. She died in Chicago, Feb. 17, 1912.

Louisa M., born near here, Nov. 6, 1838, married Henry F. Day, of Moweaqua, June 3, 1862. Mrs. Day still resides in Moweaqua.

Edward, born Dec. 27, 1843, who never married. He died in Chicago Aug. 3, 1888, and was buried there.

Ellis, born Feb. 18, 1841, married Wm. H. Reed at Moweaqua, Aug. 16, 1859. She died in Victoria, B. C., July 31, 1900.

James E., born April 24, 1846, died at Moweaqua, Sept. 19, 1889. He never married. He was buried here.

Emma, born June 21, 1850. She never married.

John Rutledge, born Sept. 24, 1848, died Oct. 26, 1848, near Jacksonville.

Harriet P., born June 21, 1852, and died near here, May 1, 1854. These last six children were all born on the farm east of Jacksonville. Emma is a supervisor of drawing in the Chicago public schools, a position she has held for some years.

James March, third child of James and Eliza (D), was born in Ireland, June 16, 1809, and married Ellen Johns in Kentucky, Oct. 6, 1831. He died in Kentucky in 1858, or Aug. 1864. They were the parents of:

Julia, born in Lexington, Kentucky, who married Andrew N. McDonald, brother of Alexander and Charles McDonald—merchants here. Ellen, born in Lexington, Kentucky, who married Dr. Bryce Randall, of Ashland. She died in 1912, in St. Louis, Mo.

James W., born in the same place as the others, who married Julia Robinson of Carrollton. He died in St. Louis, Mo., in 1911. He kept a news depot here for a while.

Sarah, also born in Lexington, who married Hat. Mitchell.

James March and his wife Ellen (J.) never came here. Their children were all grown when they, the children, came.

William Patterson, and his wife, Margaret (March) were the parents of:

Eliza Ann, born here, as were all the Pattersons, Aug. 22, 1832. She married William Barcroft, Nov. 3, 1851, and died here June 1, 1894.

Sarah Jane, born Dec. 4, 1833. She was married first to Samuel Foit; and second, to Benjamin Stanley.

John William, born Dec. 19, 1835 died single.

James Edward, born Sept. 25, 1837, died single.

Mary Rutledge, born June 11, 1841, married Ellis M. Allen, May 28, 1861, and now lives in Chicago. Mr. Allen was well known here, for years, and died some time ago. Their daughters, Clara and Bertha are in Chicago.

Lycurgus Augustus, born Feb. 2, 1842, married Sarah Thompson of Jacksonville, formerly of Perry. She is dead, but he lives in Chicago. He was a member of the 101st regiment of Ill. Vols., in the Civil War.

James March, born Dec. 25, 1846, married Mary Abide Hamilton, daughter of Emanuel Hamilton, here, June 9, 1870. He went to Rushville, this state, and thence to

Chicago, where he now resides.

The Mathers-Snyders

Eliza Drennan March lost her husband James March in Ireland. She then became the wife of Wesley Mathers, April 2, 1813. Mr. and Mrs. Mathers were the parents of John, Alexander, Eliza, Mary Ann and Wesley Mathers. The Mathers family came to America about 1823, settling near Lexington, Kentucky, where they made their home for awhile. They came to Illinois afterwards, settling here in 1830.

While Eliza Drennan Mathers had the Mathers children with her, when she came to Kentucky, she also had her March children to care for and bring to Kentucky, if all did not come to Illinois. After the happy old country way, the March and Mathers children were mothered by her, and fathered by Wesley Mathers, Sr., and they were as one family.

Eliza Mathers, daughter of Wesley and Eliza (Drennan) Mathers, became the wife of Gilbert Snyder, here, and they were the parents of children, the family being well known and prominent.

The main intent of this sketch was to tell of the March family, and its immediate connections, and the Mathers people will be considered at another time.

Again the Marches

Most of what precedes, regarding the March family has been genealogical. There is much to say more than space allows—of their standing and relation to public affairs here.

Edward March (who lived east of town, in the Hebron church neighborhood, and later about two and a half miles east, was a man of ability, enterprise and of religious activity. Both families, March and Mathers were strong in the Methodist church life, and Mr. March was long connected with his Sunday school as superintendent. He was active in business, baling hay for market, having a woolen mill in town on South Main street, besides his farming. As stated before, he contracted the cholera and died of that disease, as did one of his children.

The family of Edward was also enterprising and prominent. Among his children were Edward and Jas. E., both well known in the cattle business.

Edward was engaged in that line in New York for some time, and afterward, to the last, in Chicago. Jas. E. had most of his experience in Chicago. They had many friends who were sad to have them go so soon. This writer went to school with both of them, and particularly enjoyed association with "Jim." Their town home was on College street, south side, just two doors east of Prairie.

Elizabeth, Mrs. Morton, was an attractive lady, well known here, and the mother of five sons, only two of whom grew up. One of whom, Edward, used to be in the Journal Business Office. Both of the boys died young.

Louise M., Mrs. Day, married a man prominent in Moweaqua, where she is still left to her friends.

Henry Franklin Day was a man among men, "one of the most prominent and useful citizens," an Odd Fellow, a Knight of Pythias, and of the Knights of Honor. The three orders had charge of his funeral services. He was journal clerk of the grand lodge of Odd Fellows for twenty five years, and state secretary of the Knights of Honor. In nationality, he was English, having been born in Birmingham in 1835. He was the father of two sons and six daughters, and he and his wife lived happily together for over forty years from June 3, 1862.

Ellis, Mrs. Reed, was married to Wm. H. Reed, at Moweaqua, and she went far, to Vancouver, B. C., before they were parted. Mr. Reed, who was known here, first, as a clerk for Kibbe and Lathrop, under the Mansion House, had a remarkable career. The Central Christian Advocate, speaking of his death, Sept. 8, 1912, said, in part:

"It would seem impossible for the light of the setting sun pouring thru the cathedral windows of Grand Avenue church (Kansas City) to be ever more mellow or transfiguring than when, on Monday evening of last week, it fell on a company of people passing by an open casket lying by that altar. * * * What was it that drew that company together in that place in that evening hour? It was the passing of William H. Reed. * * * When William H. Reed came from Jacksonville to Kansas City forty two years ago, there was but one Methodist church, and the little city itself was almost lost in the bluffs and hills. * * * When Wm. H. Reed arrived in Kansas City a dynamo of incalculable speed and capacity arrived. He came as a railroad man, representing the Chicago & Alton. * * * Wm. H. Reed was made superintendent of the Sunday school. He continued superintendent of that Grand Avenue Sunday school for twenty five years. * * * In 1880 there were 1400 scholars. * * * Wm. H. Reed was known thruout the South West. If unheralded he entered some prayer-meeting in the prairies, the preacher came to him at the close of the meeting and said: 'You must be William H. Reed.' Even so. And there are many hundreds scattered all over the South West who, if they read this, will say: 'I knew him; I was in his Sunday school class; he put strength into me. I could scarcely have been the man I am had my path never crossed that of William H. Reed.' After twenty five years he resigned. The govern-

ment sent him in the immigration service to Vancouver. There we called upon him. He was not in. But others in the building told us of the impression he had made under that foreign flag. * * * Then the writer tells how the good man became blind, but still "he was the walking epitome of friendship."

And so the double column "Appreciation" ran on, and it said, "In Europe the builders of churches and cathedrals are laid at rest in the crypts of structures they build. If that were the practice here, a place would be made in the crypt of the mother church of Kansas City for the body of William H. Reed. * * * William H. Reed came from Jacksonville, Illinois, in 1870; he leaves two children, a daughter in New Jersey and a son in Kansas City; he is buried in the family lot in Jacksonville."

One evening, not so long before that, Mr. A. C. Wadsworth introduced the writer to that big man—"William H. Reed."

The March family can be proud that he came into it!

UTAH TO ENFORCE PROHIBITION LAW

County Attorneys and Sheriffs Meet to Decide Upon Uniform Plan of Procedure—Law Is One of the Most Drastic Adopted in Any of the States.

Salt Lake City, Utah, July 25.—County attorneys and sheriffs of Utah met in conference with Attorney General Shields here today to agree upon uniform plan of procedure in the enforcement of the Utah State wide prohibition law which is to come into effect one week hence. The law is considered one of the most drastic of its kind adopted in any of the States. In general, it prohibits the manufacture, sale or possession or importation of any intoxicating liquors, except alcohol for manufacturing, scientific and medicinal purpose.

The injunction and abatement law is included in the provisions of the law in order that property where violations of the law take place may be closed up. The second conviction for a violation of the act, other than appearing intoxicated in the street, is made a felony.

Search and seizure of persons, receptacles and vehicles under suspicion of having or containing intoxicating liquor is permissible, but search warrants must be sworn out to search residences or buildings for liquors.

Provision is made for the destruction of liquors, fixtures or furniture seized in connection with violations of the law. The Governor has the authority to call upon any peace officer, including game wardens to enforce the law.

HORSE SHOW AT LONG BRANCH

Long Branch, N. J., July 25.—The annual Long Branch Horse Show, which has been one of the social attractions of the summer season here for a quarter of a century, was opened at Hollywood Park today and will be continued until Saturday. The hotels and clubhouses are filled, and the cottagers are all entertaining guests. Five thousand dollars in money and plate have been offered by the association this year. The net proceeds of the exhibition will be donated to the Red Cross.

PROMINENT LOCAL RESIDENT HEARD

Mrs. Sophia Day Pays New Medicine Tanlac Glowing Tribute

Mrs. Sophia Day, 1079 North Diamond street, has been a resident of Jacksonville for the past thirty-eight years and she is well known and highly respected here. Many people will no doubt be interested in what Mrs. Day has to say about Tanlac, the celebrated new medicine.

"Stomach trouble and nervousness have bothered me for several years," she told the Tanlac Man on June 5. "My system generally was all run down. My food didn't digest properly and I would be greatly annoyed by a full feeling in my stomach after meals. I seemed to have no ambition or energy and just had to drag myself around all day."

"After I had learned of the good work Tanlac was doing for so many local people it didn't take me long to decide to try it. One bottle of Tanlac has made me feel much better generally. Why, my nerves are really in fine condition now, and my stomach never bothers me hardly at all. My food digests properly now and I scarcely ever notice the full feeling after meals. I've been benefited greatly and I'm glad to let my friends know that I think Tanlac is a fine medicine."

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Coover-Shreve Co. It is sold in Waverly at the Wyle Drug Co.; in New Berlin at the New Berlin Drug Co.; in Ashland at H. O. Brownback's; in Versailles at A. G. Bates'; in Chapin at F. P. McKinney's; in Roodhouse at W. D. Berry's; in White Hall at the City Drug store; in Bluffs at F. T. Curtis'; in Pittsfield at J. H. Barber & Co.; in Loami at L. N. VanDeren's; in Diverson at E. G. Haug's; in Manchester at C. D. Chapman's and, in Winchester at the City drug store.—Adv.

Hypoferrin

FOR BETTER NERVES

Better nerves—better health. For the run-down, tired, weak and worn. HYPOFERRIN Tablets furnish the nerve food that Nature has denied you. A single day's treatment often produces remarkable results—\$1.00 per package, 6 packages for \$5.00 from your Druggist, or direct from us if he cannot supply you. Sold only on the condition that we refund your money if you are not pleased with HYPOFERRIN results. The Sentinel Remedies Company, Inc., Masonic Temple, Cincinnati, Ohio.

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be

rid of Catarrh, you must drive the disease germs out of your blood. Splendid results have been reported from the use of S. S. S., which completely roots from your blood the Catarrh germs, for which it is a perfect antidote.

S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B Atlanta, Ga.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations, and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

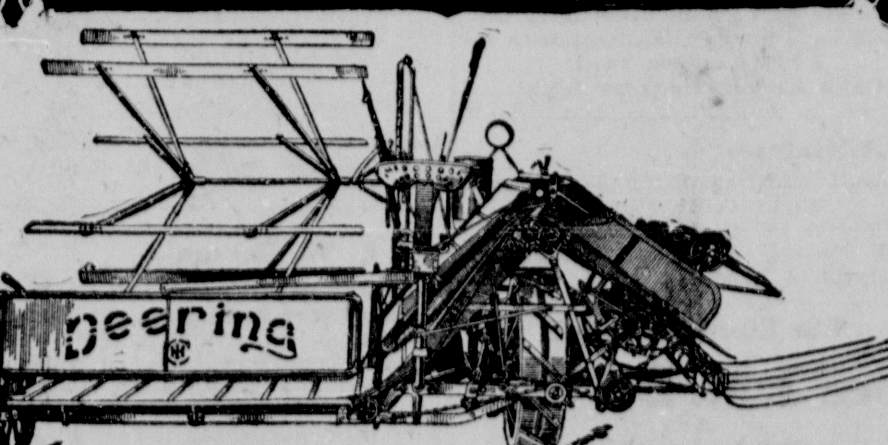

Bears the Signature of

Chas. H. Fletcher.
